			13

*At least one of these Bible or Theology Courses must be taken at Northwest University

NURSING: 8-SEMESTER PLAN FOOTNOTES

NOTES:

¹ The introductory biology course is recommended to present/review scientific methodology, biological concepts, and basic laboratory procedures for the purpose of preparing students for science courses taken in the sophomore year.

² During the first week of classes in the junior year the student must submit an application for graduation to the Registrar's Office.

³ The final semester of coursework before graduation must be taken on campus irrespective of the amount of previous work completed at Northwest University. Exceptions require special approval from the Provost.
