Northwest University partners with Lakeview Elementary School by providing University students to assist Lakeview students and their teachers in all manner of activities including tutoring and administrative support. (Lakeview Elementary School is located less than a mile from Northwest University at 10400 NE 68th St.)

The Family Literacy Project (FLP) is supported by the Federal Work Study Program. In order to participate you must have received Work Study on your Award Letter.

Students in the School of Ministry may apply for this unique, off-campus opportunity.

Students who participate in the Family Literacy Project represent Northwest University as paid employees of the Lake Washington School District.

Lakeview Elementary School will work around the students schedule.

Students should be prepared for a formal interview prior to being hired.

Students interested in participating in the Family Literacy Project should stop by the Financial Aid Services Office to fill out a FLP Referral agreement. The FLP Referral Agreement will be sent to Lakeview Elementary School who will contact the student for an interview if there is a position available.
