As a new student, can I arrive to campus before the official move in date?

Students are not able to move into campus housing before the first day of Orientation. We understand that some students have to travel from out of state or country, but we do not have the ability to move you in early. You can stay at a local hotel in the area; we have many with a 5-mile radius of campus. *All athletes, orientation leaders and other student leaders required to be on campus early are approved once coaches and supervisors submit rosters to the Director of Residence Life and Student Housing.
