**Core Theme Three**
- Advancing academic engagement through teaching, learning and scholarly production

**Core Theme Four**
- Empowering people with the vision and tools to meet human need in their personal and professional lives

COMMUNITY COVENANT

Our community covenant is founded on our shared calling and relationship as Christ-followers, as outlined in Colossians 3:12-15. “Therefore, as God’s chosen people, holy and dearly loved, clothe yourselves with compassion, kindness, humility, gentleness and patience. Bear with each other and forgive one another if any of you has a grievance against someone. Forgive as the Lord forgave you. And over all these virtues put on love, which binds them all together in perfect unity. Let the peace of Christ rule in your hearts, since as members of one body you were called to peace. And be thankful.”

Based on the teachings in this verse and the enabling of God, we endeavor that all of our interactions and communications will show respect for the wellbeing of all, especially those who may disagree with us.

To that end, we commit before God to communicate honestly, openly, and humbly—without cynicism or a supposed sense of superiority and always with the respect that allows us to recognize the value of others as children of God and members of this community. Furthermore, we recognize the value of diverse opinions and that unity does not require unanimity.

Standards of Civility

By civility, we intend more than mere politeness. Rather we intend a basic set of attitudes and actions upon which we can build a community that is able to celebrate our differences, make decisions, and resolve conflict in a positive and forward-moving manner. These standards do not intend to stifle anyone’s leadership, academic freedom, or freedom of speech. Rather they provide ‘guidelines of participation’ for our Christian and professional community. The goal is to create the conditions that best allow trust and positive relationships to flourish.

Therefore, the NU administration, faculty, and staff commit to prioritize the following in our communications within NU and concerning NU to the general public:

1. Encouragement: encourage each other and value the contributions that all members make to the shared mission of NU.
2. Collaboration: choose to enter into communication non-defensively, assuming other parties have good will toward us and are acting in good faith.
3. Forgiveness: allow others to grow through forgiveness, and avoid holding grudges.
4. Inclusiveness: prioritize inclusive language and actively recruit input from under-represented voices (bearing in mind categories like gender, culture, ethnicity, position, and rank).

Governance, Planning and the Use of Authority

We recognize that we all exercise authority in one or more areas, making decisions that affect others. Therefore, we commit to the following tenets:

Whether as individuals or as groups, we affirm that it is incumbent on us to value a broad perspective and seriously take into account those whom our decisions affect and those with a reasonable interest in our decisions. It is also incumbent on us, when we have a reasonable interest in decisions, to engage and offer input.

Similarly, we acknowledge that there are times when decisions are made with which everyone does not agree. In those instances, we commit to behave with a cooperative and positive attitude, even while we may continue to work respectfully within the system to seek change.

Healthy Interaction, Input, Grievances, Complaints, and Contributions

In our communication, we will seek the most respectful, orderly, and productive tone and medium appropriate for our message and context. Particularly in times of conflict, we should, as professionals, craft our communication in a manner that minimizes miscommunication and preserves the intent of our message. The Employee and Faculty Manuals outline procedures for engaging the system and working through committee and group structures to affect change. In the case of more personal grievances between individuals, all effort should be made to resolve the issue through the process outlined in the Employee Manual, Section V: Conduct: Complaint Resolution.

We commit to the following actions:

- Be truth seekers who speak in specifics, not in generalities.
- Seek to understand fully before expressing disagreement or dissent.
- Rely on first-hand accounts.
- Strive to reconcile hurts and reach a mutually agreed upon resolution.
- Take personal responsibility for uncivil or improper actions in order to restore harmony in the community.
- Participate in the discussion of issues of concern, or if not, choose to respect the outcome.

We commit to this covenant remembering that in the companionship of fellow Christians we can see the image of God in one another. As Paul exhorts us, “therefore make every effort to do what leads to peace and to mutual edification” (Romans 14:19).
The founders of Northwest University built a community of faith and learning, focused on serving people who are pursuing God’s call on their lives. We are convinced that God continues to call every man and woman to a life of faithful, devoted service. Northwest University is committed to being a university of choice for students passionate about confirming and clarifying God’s call.

Heart

We believe that the best response to God’s call is to develop exceptional character and competence. A commitment to scholarship and discipleship grows out of a worldview anchored in Scripture. Northwest University integrates Faith and Truth with powerful, effective teaching in Ministry, Arts, Sciences and the Professions. The entire University community strives to engage biblical Christianity with every aspect of life.

Northwest University finds its crowning joy in thousands of alumni serving in nearly every profession around the world . . . they are people showing Christ’s love through hands of compassion. Our faculty model lives of whole-hearted service. Our students make an impact for the Kingdom in numerous outreaches and ministries. Northwest University is committed to preparing people for service and leadership, doing God’s work in God’s world.

HISTORY AND LOCATION

Northwest University was founded by the Northwest District Council of the Assemblies of God and opened to students on October 1, 1934. The District Presbytery appointed Dr. Henry H. Ness to be the first president. The University was housed in the facilities of Hollywood Temple, Seattle, Washington, for the first twenty-five years of its existence. Dr. C.E. Butterfield succeeded Dr. Ness in 1949, and Dr. D.V. Hurst assumed the presidency in 1966 and served through 1990. He was succeeded by Dennis A. Davis, who served as the fourth president of the college from 1990-1998. Dr. Don Argue served as the fifth president of Northwest University from 1998-2007. Dr. Joseph Castleberry is the sixth president of Northwest University. Originally known as Northwest Bible Institute, its institutional name was changed to Northwest Bible College in 1949, to Northwest College of the Assemblies of God in 1962 and to Northwest University in 2005. Each change represented a stage in its curricular development.

Academically the University progressed from a three-year to a four-year curriculum in 1948, and in 1955 a Liberal Arts division was organized. Accreditation by the American
Association of Bible Colleges was granted in 1953, and in 1973 the University received regional accreditation by the Northwest Association of Schools and Colleges.

In May 1992, Northwest University became the eighty-fifth college approved for membership in the Council for Christian Colleges and Universities, an association of Christ-centered colleges and universities of the liberal arts and sciences.

In 1958 the University secured a new 35 acre campus in Kirkland, in the greater metropolitan area of Seattle. Since then 20 acres have been added to make the present 55 acre campus. Located at 108th Avenue N.E. and N.E. 53rd Street just ten miles from downtown Seattle, the campus is an ideal setting for study, recreation, and inspiration. The campus is also near to industry and close-at-hand employment opportunities. In 2002, the University purchased additional property at 6710 108th Avenue N.E. that serves administrative and academic functions.

In 2008, Salem Bible College (Salem, Oregon) merged with Northwest University and became Salem Bible College of Northwest University. As of December of 2008, Salem students earn their degrees from Northwest University. In 2012 the name was changed to Northwest University Salem Campus.

In 2013 Northwest University will begin to offer classes and academic degrees in Sacramento, CA at Northwest University Sacramento Campus.

Over the years, the University’s graduates and former students have engaged in full-time Christian service in professional, business, or vocational occupations in fulfillment of their educational objectives at the University.

**EDUCATIONAL PHILOSOPHY**

Northwest University’s concept of education is distinctively Christian in the evangelical sense. It recognizes the authority of the Bible as a divine communication of truth. It views humanity as having been created by God with intellectual, physical, social, and spiritual potentialities which require development and needs which require fulfillment if the individual is to be a whole person whose life is useful, complete, and satisfying.

As a morally responsible being whose choices and actions determine usefulness to the Creator and to humankind, as well as the ultimate ends of one’s existence, the individual has a need to recognize and appreciate righteousness, beauty, and truth wherever one finds them. Education should develop moral, spiritual, intellectual, and aesthetic awareness and values.

As a creature of God, each person is an individual of intrinsic worth and dignity. In a society of free persons it is essential that each learn to respect humankind and understand their views while maintaining one’s own integrity. The individual must have knowledge of one’s culture and of self, in order to solve the complex problems of modern life.

Northwest has a commitment to truth and believes that all areas of true knowledge are ultimately compatible. The accumulative experience of humankind has resulted in a residue of tested wisdom and knowledge communicated. True knowledge may be discovered, too, through the careful and reverent scientific scrutiny of nature and of humanity. Neither the past nor the present has a monopoly on truth.

**EDUCATIONAL GOALS**

In view of its distinctive philosophy, Northwest University seeks to provide education which will introduce the student to the organized fields of learning and will acquaint one with the Christian theistic view of the world and of humanity and one’s culture. Such an education is intended to develop the whole person in a balanced and useful manner.

Since Northwest believes that responsible actions in the present are dependent in part upon knowledge of humanity’s past experience, it seeks to communicate to the student what may be known of people’s cultural heritage. It seeks to impart knowledge, stimulate awareness, and develop appreciations.

Northwest seeks to cultivate Christian character in its students. It offers a core of biblical and theological studies as the foundation for faith, practice, and spiritual maturation. It desires that each student shall maintain a right relationship to God and to humanity, and be prepared to act responsibly and maturely in contemporary society.

Northwest is concerned with the intellectual development of its students. It desires that its students will learn to evaluate and use knowledge, so that they can continue to make new discoveries throughout life.

Northwest recognizes that people are social beings and that they are debtors to society; no one stands alone or exists without purpose. It seeks to awaken social understanding and concern and to motivate its students to commit their lives to worthy goals of service to God and humanity. At the same time it endeavors to stimulate in its students a social and moral perceptiveness that will make them worthy and constructive critics of contemporary society.

Northwest realizes the importance of physical and mental fitness, and encourages its students to participate in healthful activities and to develop habits which will con-
tribute to their physical well-being. It seeks to give them a better understanding of humanity’s biological and psychological constitution.

**COMMUNITY AFFIRMATION STATEMENT**

Northwest seeks to relate biblical Christianity to every area of life, both on and off campus: to academic disciplines, to co- and extracurricular activities, in the residence halls, in the local community, and in one’s personal life. It assumes that all members of the Northwest community desire meaningful involvement in the process of Christian higher education as they seek to express their faith in the context of an Assemblies of God University. Faculty and staff members commit themselves to be facilitators and learners in this educational endeavor. Students, by enrolling, join with them in accepting the responsibilities of membership in this community.

Since Northwest holds that the Scripture is the infallible rule for faith and conduct, the Bible will always be the authority in all matters pertaining to personal and corporate behavior. The University believes that its statement of faith and its statement of principles regarding behavior find their basis in the Bible. This affirmation attempts to provide a means to understanding the nature of this community of believing learners and to encourage a sincere commitment to it.

We affirm the Lordship of Christ over all of life and thought; our responsibility to love God with all our being and neighbor as ourselves; our obligation to seek righteousness, to practice justice in all situations, and to express mercy to all; our need to exercise Christian freedom responsibly and lovingly and our dependence on the empowering of the Holy Spirit if we are to faithfully fulfill what God requires.

We affirm the biblical description of attitudes and behavior unfitting for a Christian: “The acts of the sinful nature are obvious: sexual immorality, impurity and debauchery, idolatry and witchcraft, hatred, discord, jealousy, fits of rage, selfish ambition, dissensions, factions and envy, drunkenness, orgies, and the like” (Gal. 5:19-21a, NIV). Through the help of the Holy Spirit we strive to allow none of these to be part of our behavior. We affirm also the biblical description of attitudes and behavior fitting for a Christian: "But the fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control” (Gal. 5:22-23a, NIV). We seek to maintain a vital relationship with the Spirit so that such attitudes and behavior will be evident among us. We seek to follow Christ’s example of unselfish love in our actions, attitudes, and relationships.

We strive to maintain stewardship of body, mind, time, abilities, and resources. We strive to integrate corporate worship, personal faith, and intellectual growth.Attendance of the University chapel services and faithful attendance and support of a local church are integral parts of that process.

Northwest recognizes that not all believers share the same standards in matters of behavior the Bible does not specifically address. As members of this community, however, we also recognize the importance of respecting the values and goals of the University and will, therefore, seek to conduct ourselves in a manner that will bring only credit to the gospel and to Northwest. Since we are also part of the larger society, and in order to “let our light shine out” we will strive to maintain good community relations in respect to governing authorities, social activities, and business dealings.

This affirmation provides a positive and constructive framework to aid one’s personal development and for ongoing relationships with all other members of this community. We join with each other as we seek to live out this affirmation in a spirit of unity and openness, of helpfulness and caring.

**PRECISION OF LANGUAGE**

Northwest University is committed to the equality of men and women and to creating a learning community for all people. This commitment is based on the Bible’s teaching that God’s kingdom is made up of men and women from every nation, tribe, people, and language—and that no group constitutes the norm. Therefore, we expect students and members of the faculty, staff and administration to avoid sexist language and to employ inclusive language in writing, public speaking, and public worship. Further, we encourage members of the Northwest University community to be sensitive and respectful whenever referring to the personal characteristics of others. For guidance, see the Non-Discriminatory Language Guide at the Hurst Library.

**STATEMENT OF FAITH**

We believe:

- the Bible is the inspired and only infallible and authoritative written Word of God.
- there is one God, eternally existent in three persons: God the Father, God the Son, and God the Holy Spirit.
- in the deity of our Lord Jesus Christ, His virgin birth, His sinless life, in His miracles, in His vicarious and atoning death, in His bodily resurrection, in His
ascension to the right hand of the Father, in His personal future return to this earth in power and glory to rule a thousand years.
– in the blessed hope—the rapture of the Church at Christ’s coming.
– the only means of being cleansed from sin is through repentance and faith in the precious blood of Christ.
– regeneration by the Holy Spirit is absolutely essential for personal salvation.
– in water baptism by immersion.
– the redemptive work of Christ on the cross provides healing in the human body in answer to believing prayer.
– the baptism in the Holy Spirit, according to Acts 2:4, is given to believers who ask for it.
– in the sanctifying power of the Holy Spirit by whose indwelling the Christian is enabled to live a holy life.
– in the resurrection of both the saved and the lost, the one to everlasting life and the other to everlasting damnation.

RECONCILIATION STATEMENT

Whereas we believe that:

– every person, regardless of ability, age, gender, race, ethnicity, or religion shares equally in the image of God;
– all are sinners and that we equally partake of the consequences of sin;
– Jesus Christ died for all and that we equally have access to redemption;
– God is sovereign and that He calls into His service whomever He chooses and that He gifts and equips those He calls in order that they might accomplish that calling;
– there is hope for all believers for fellowship with the Lord and with each other presently in His Church and in His coming Kingdom.

Be it resolved that:

– we, as members of the Northwest University community, desire the equality of opportunity and respect that results from true Christian community where we cherish unity in diversity and practice mutual support as evidence of God’s presence, by His Holy Spirit, in us;
– we seek forgiveness for all attitudes, language, and actions that have intentionally or unintentionally contributed to discrimination regarding race, ethnicity, gender, physical ability, and age within the Northwest University community and within the society in which God has placed us;
– we pledge not to engage intentionally in any act that would result in unlawful discrimination against any person, or group of persons, based upon race, ethnicity, gender, physical ability or age;
– we pledge to engage our University community in activities and communications that will develop greater awareness and sensitivity to interpersonal intolerances that would be considered unacceptable by biblical teachings and would lead to tolerance that is reflective of God’s character;
– we further pledge to develop ongoing formal and informal opportunities to facilitate the process of reconciliation of God-honoring relationships among all people, based upon the clear call of God through the Scriptures;
– we commit ourselves to dialogue, study, and affirming initiatives and actions designed to enable us to bear one another’s burdens and rejoice in the privilege of fulfilling the law of Christ.

CAMPUS AND BUILDINGS

**Salvation Experience**

The mission of Northwest is to “carry the call of God by continually building a learning community dedicated to spiritual vitality, academic excellence, and empowered engagement with human need.” As a Christian Liberal Arts University, all experiences are directed to students discovering and preparing for God’s plan for their lives. Therefore, a vital experience of salvation through faith in Jesus Christ is required to be admitted.

**High School Graduate**

Applicants must be graduates of a recognized high school. The following years of preparatory work are recommended: English (4), Math (3), Social Studies (2), Science (2), Foreign Language (2) and Electives (3).

Applicants may be admitted on the basis of satisfactory scores on the General Educational Development (GED) Tests as established by State Competency Standards.
Home schooled students who apply for admission to Northwest University are required to submit the same application materials as stated for all students. Transcripts prepared by an individual educator must include information about curriculum and reading lists included with the home school program. Admission for students who submit transcripts from a home educator will weigh more heavily on test scores, demonstrated written ability, and academic curriculum. In addition, applicants may be required to submit a GED if their academic records are of marginal quality.

A limited number of mature persons who are not graduates of a high school may be admitted on a selective basis as non-degree seeking or non-matriculated students. However, non-degree seeking or non-matriculated students are not allowed to earn degrees, diplomas, or certificates at the University.

Notification of Admission

After the application, application fee, reference forms, SAT or ACT scores, and transcripts have been received, the Admissions Committee will evaluate the application. Applicants will be notified by mail whether or not they are accepted. No assurance of acceptance should be assumed until the applicants receive an official acceptance letter from the Admissions Office.

Accepting Offer of Admission

To accept an offer of admission, follow these steps:

1) Confirmation Deposit - A $100 advance payment is the student’s acknowledgement of intention to enroll. The confirmation form and deposit should be submitted to the Admissions Office. This payment is credited to the student’s account and is applied towards the initial tuition payment. Deposits for fall semester enrollment are refundable or deferrable to a future semester upon written notice of cancellation or deferral by July 15. Those canceling for the spring semester must give written notice of cancellation or deferral by December 15 to receive a refund or to defer the deposit to a future semester. Thereafter refunds are granted only for reasons of extreme illness or emergency, as verified by the Housing Office.

2) Housing Deposit – A housing deposit of $300 must be submitted in order to hold a housing placement. The priority deadline for housing deposits and fully completed applications is May 15 for the fall semester and December 1 for the spring semester. Beginning in February, students who have paid the confirmation deposit will be mailed detailed housing materials, including information on the housing application process and room deposit. Students who pay the confirmation deposit after February 1 will be sent a housing packet within two weeks of their confirmation. Deposits and housing applications should be submitted as early as possible.

- Deposits for fall semester are refundable or deferrable to a future semester upon written notice of cancellation or deferral received by July 1. Those cancelling housing for the spring semester must give written notice of cancellation or deferral by December 1 to receive a refund or to defer the deposit to a future semester. Thereafter refunds are granted only for reasons of extreme illness or emergency, as verified by the Housing Office.

3) Health Forms – Admitted applicants are to complete certain health forms during the Registration process: an emergency authorization form is to be completed in all cases and submitted along with a medical history report. The University reserves the right to require a medical report from the applicant’s physician where questions about physical or mental health emerge. On campus applicants are required to submit an immunization record prior to being placed by the Housing Office.

International Students

International applicants must complete the same admissions process as other freshman or transfer students. Additionally, international applicants must fulfill the following requirements:

- Statement of Financial Responsibility and supporting documentation - Northwest University is required by the United States government to obtain evidence that each applicant has adequate funds to pay for educational and living expenses for the period of study and may require a sponsor if the student does not have sufficient personal or family funds to meet the cost of education and living in the United States.

- TOEFL - International students whose native language is not English must submit a TOEFL score from an exam taken no more than six months prior to application to the University. A score of at least 500 on the paper based test, 173 on the computer based test or 61 on the internet based test is required for admission to Northwest University.

**International application deadlines**

Fall – April 1
Spring – September 1

Applications completed after the deadlines will be reviewed as space is available.

**Re-Admission**

Former students who have been out of enrollment for one semester or more must complete an Application for Re-Entry and submit one current Pastoral Reference. They will not be required to obtain new transcripts other than for college work taken during the interim away from Northwest University. Students who are returning only to graduate without additional course work must also complete the reapplication process.

**ADMISSIONS STANDINGS**

**Regular Admissions Status**

Regular admissions status is for a student who meets all requirements for admission and is pursuing a degree or approved certificate from the University. Regular standing is granted to admitted applicants who have achieved at least the minimum cumulative grade point average (GPA) requirements in their high school and/or college course work (if a transfer student), and satisfactory test scores as required by the respective undergraduate or graduate program. For undergraduate degrees or certificates, a minimum GPA of 2.3 in high school and college course work is required.

**Academic Probation Status**

Probation status may be granted to a limited number of selectively admitted students who, in the judgment of the Admissions Committee, show promise of benefit from the opportunity to pursue work at Northwest University. A minimum incoming cumulative GPA of 2.00 is normally required for admission on probation.

**Non-Degree Seeking Student Status**

A Non-Degree Seeking Student is not seeking a degree or approved certificate at the time of admission. Individuals in this status may be enrolled in courses for reasons such as personal enrichment, learning or upgrading job skills, or fulfilling degree requirements for another institution. A Non-Degree Seeking Student is not eligible for federal or state financial aid. Courses taken by a student while under this status are a part of the student’s permanent academic record, but are not guaranteed to apply to a degree or certificate offered by the institution. Specific course prerequisites must be satisfied regardless of a student’s admission status.

**Non-Matriculated Seeking Student Status**

A Non-Matriculated Student has been approved to enroll in a specific term for a specific course that has been designated open to non-matriculated students. Students in this status are not seeking a degree or approved certificate at the time of admission and are not eligible for federal or state financial aid. Courses taken by a student while under this status are a part of the student’s permanent academic record, but are not guaranteed to apply to a degree or certificate offered by the institution. Specific course prerequisites must be satisfied regardless of a student’s admission status.

**Early Action**

The Early Action program at Northwest University is a nonbinding agreement for students who place NU among their top choices of universities. To be eligible for the Early Action program, students must submit a completed Application for Admission by the stated deadline. The deadlines for this program are the following:

- Early Action 1: November 15
- Early Action 2: January 15

Participating students will receive notification of their admission status within one month of the Early Action deadlines. Students admitted as part of the Early Action program receive priority for course registration and housing placement.

**TRANSFER CREDIT**

During the admissions process, official transcripts from all previously attended educational institutions are evaluated for the maximum amount of transfer credit possible. The results of this evaluative process are communicated to students and their academic advisors on a Transfer Report. Any subsequent credits earned by students must also be communicated via an official transcript, evaluated by the Registrar’s Office, and officially reported. The University strongly recommends that students intending to transfer additional courses to Northwest verify that the intended course will be received prior to enrolling in the course. This is applicable to prospective and enrolled students. See the Northwest University Credit Transfer Guide for further details.

**Semester -- Quarter Credits**

Northwest University’s academic calendar is formatted on a semester basis. A credit transferred into Northwest from a college operating on a quarter-calendar is
equivalent to 2/3 of a semester credit. Thus, one can translate quarter credits to semester credits by dividing the quarter credits by 1.5.

Advanced Standing
Northwest University accepts credits earned through the Advanced Placement Testing Program (AP), International Baccalaureate (IB), the College Level Examination Program (CLEP), the DANTES Subject Standardized Tests (D.S.S.T), and Running Start. Recommendations regarding college credit are made by the Registrar. For credits earned through testing while a matriculated student, refer to Academic Policies and Information, Alternative Ways to Earn Credit.

Military Credit
Those having had military service may petition the Registrar’s Office for physical education credit upon presenting appropriate documentation.

Transfer of ICRC Associate in Arts
Northwest University accepts the transfer A.A. degree from those colleges in the State of Washington whose degree requirements conform to the guidelines of the Intercollege Relations Commission (ICRC). The degree will satisfy many of the University’s Core Curriculum Requirements, and will confer 60 semester credits of work in transfer to Northwest University, giving the student junior standing. However, because of the specific nature of some degrees, some Core Curriculum Requirements may still remain to be satisfied.

Transfer of Credit from Regionally or ABHE Accredited Colleges and Universities
Students desiring to transfer to the University from another institution accredited by one of the six regional associations or by the Association for Biblical Higher Education (ABHE) must follow the general instructions for admission and must see that transcripts of previous college work are sent to the Admissions Office. Course work in parallel courses or areas of instruction will be considered for transfer provided that they show a grade of “C-” or better. (Some majors may have a higher grade requirement for some of their courses.)

Extension & Correspondence Credit
All credits earned through correspondence must be completed prior to the beginning of the final semester preceding graduation. Students should take no more than two correspondence courses concurrently, and correspondence courses taken during the academic year should be considered to be part of the student’s total academic load.

Transfer of Credit from Non-Regionally or Non-ABHE Association for Biblical Higher Education

Academic work presented from colleges and universities that are not accredited by one of the six regional associations or by the Association for Biblical Higher Education (ABHE) is subject to the following limitations and guidelines:

- Transfer from all such sources is limited to a total of 30 semester credits.
- Courses are considered on a course-by-course basis.
- Acceptance of such credits is dependent upon the University’s evaluation of the equivalency of course work and level of instruction.
- All such transfer credit is considered at the time of admission or readmission to the University.
- Transfer credit from such sources must be validated by completion of a minimum of two semesters enrollment and 30 credits at Northwest University with grades of 2.00 (C) or better, and possibly by examination.
- Only evaluations and commitments made in writing by the Registrar’s Office will be considered as being applicable.
- College-level work considered occupational or remedial is not recognized for transfer.
- Enrolled students desiring to transfer credits from such institutions must obtain prior approval from the dean of the school or college into which the credits are to be transferred.

RESIDENCY REQUIREMENTS

At least one academic year (with a minimum of 30 semester credits) must be completed at Northwest University for every degree earned, and the final semester of work before graduation must be taken from Northwest University irrespective of the amount of previous work completed at Northwest University. One-third of the major requirements must be completed in residence at Northwest University.

A student registered at Northwest University may not receive credit for a concurrent enrollment at another institution without approval. Students interrupting their programs at the University may, upon returning, graduate under the requirements of the catalog in effect during the semester in which they first enrolled, provided graduation is within six years from the end of that semester. (The summer semester may count as a part of the semester before or after it.) However, a student may graduate under the requirements of the current catalog. It is expected that the requirements of the catalog chosen will be followed as a whole.
The Northwest learning experience occurs in an engaged, active environment in which students participate, take ownership, and apply their learning to God’s call in their lives. Participation in the Northwest University learning community is an integrated experience that occurs both in and out of the classroom. Student Development enriches the student academic program so that each student will have both a fulfilling experience while on campus and a successful life beyond the University. Each member of the community makes a distinct contribution through shared scholarship, leadership, worship, service, and other campus life opportunities. Northwest students are encouraged and expected to offer a unique blend of strengths, characteristics, curiosity, and callings to enhance this Christian community of scholarship and learning.

“Learning to do life well…together”

WHOLE-LIFE LEARNING

Undergraduate students are at a life stage when they are developing a sense of individual identity, spiritual formation and vocational direction. The Student Development Division provides a variety of opportunities for students to cultivate leadership skills and to participate in service and ministry. Our hope is that as students learn to rely on God's grace for growth during their college years, they will develop priorities and habits of the heart that will enable them to be leaders to serve the church and contribute to society as alumni.

As Student Development staff, we work together with faculty in the unified purpose of enabling Northwest students to integrate their faith, learning, and living. It is precisely Northwest University’s commitment to whole-life faith-integration that gives it an unparalleled ability to develop a student of premier capabilities. The Student Development office is committed to providing a campus environment, programs, and service opportunities that cultivate a sense of Christian community. Co-curricular activities encourage thought and action that reflects and complements the student's classroom experience while also striving for the campus community to model commitment to Jesus Christ and to promote habits of lifelong learning. From classroom, to chapel, from community center to dorm room, Northwest University is committed to maturing and developing the whole human being.

Core Capacities

The Mission and Vision statements of Northwest University find expression in the following Student Development Core Capacities that serve as the driving force for the university living and learning community environment and program. Research suggests that students learn the most during college from direct contact with other students. Given this principle, the Division of Student Development initiates intentional programs and services that support student learning. The Core Capacities of Intellectual Development, Spiritual Formation, Wellness, Leadership and Citizenship serve as the overarching learning outcomes attained through the out-of-class campus experience. With these Core Capacities as a blueprint for holistic learning, the Student Development Division facilitates a proactive and comprehensive student life program that establishes critical connections between students, faculty, staff, and the community. The program provides opportunities for life-shaping experiences that will result in academic success, a thoughtful approach to the integration of Christian faith and society, and healthy, life-long relationships.

Community Handbook

The Community Handbook is published on the Northwest University web site to acquaint students with the Northwest University way of life. The Handbook describes what students can expect of the University and what the University expects of students. All expectations are designed to assist students in their adventure of Carrying the Call.

When students apply for admission, they must indicate that they have made a personal commitment to Jesus Christ as Lord and Savior and that they are willing to live according to the life style standards of the University community.

Northwest University students are expected to recognize their responsibility to God by careful use of their time and to engage only in such activities as may contribute to their spiritual, moral, intellectual, and physical well-being. Questionable entertainment and all activities which diminish a person’s moral sensitivity and fervent
walk with God should be avoided. Being an authentic biblical Christian both on and off campus is a clear and present standard of Northwest University.

Northwest University will promote Christian citizenship through instruction, corrective confrontation, and discipline, when necessary for the purpose of developing and maintaining a Christ-centered environment. An acceptable citizenship record, which includes academic and financial responsibility to the University, must be maintained to qualify for enrollment, participation in student leadership offices, co-curricular activities, including all athletic and music programs, and graduation.

The University reserves the right to modify and amplify the standards and dates set forth in the Community Handbook and to use its discretion in the interpretative enforcement of all ideals and standards of conduct.

The University reserves the right to require any student who is considered to be out of harmony with the goals and the spirit of the University to withdraw, including involuntary administrative withdrawal.

Northwest University is committed to a policy of non-discrimination with regard to race, color, national origin, sex, age, marital status, or physical disability. Persons having questions regarding University policy of non-discrimination should contact the Vice President for Student Development.

**Housing Office**

Preparing students to *Carry the Call*, Northwest University is a Christian community of scholarship and learning. Northwest’s commitment to provide a community where students live on campus is embedded in this vision. Developing competency and maturity as Christian learners, scholars and leaders occurs partially as a result of the Holy Spirit’s work in students’ lives through their relationships with other students. The interaction between people is a guiding and fundamentally important component of Christian student development. We believe it is necessary for students to be immersed in community living for essential person to person encounters to be possible. Therefore, as a condition of attending Northwest University, undergraduate students are required to live in university owned residence halls or apartments.

Vehicles
Parking permits are required for all students who park vehicles on our campuses. Students may purchase a permit online at http://www.northwestu.edu/security for $70 plus sales tax per academic year. Violation of vehicle regulations may result in fines and/or cancellation of the permit. It is expected that students bringing cars on campus will have them properly insured and properly licensed with the state in which they are registered.

Voter Registration
Northwest University encourages all students to vote in national, state and local elections. Information is available on the Secretary of State’s MyVote Web Site at https://wei.sos.wa.gov/agency/osos/en/pages/myvote.aspx.

Registering to vote in the State of Washington does affect the student’s residency status in the student’s home state. Out-of-state students who prefer to vote in their home states can obtain absentee ballots from their respective home state elections office.

Student Activities Board
The Student Activities Board plans events and activities throughout the academic year, such as a talent show, The Evening spring formal event, and Screaming Eagle Spirit Week.

Student Government
Each Kirkland campus traditional undergraduate student is eligible to vote in Northwest University Student Government (NUSG) elections. The NUSG student leaders serve the student body by cultivating a Christ-centered community advocating for the students’ needs and providing opportunities for involvement in activities, recreational sports, and ministry. Working in cooperation with the Director of Student Programs, the Student Senate, led by the NUSG executive officers, represents student interests to University Administration. Student concerns and issues are heard at regularly scheduled Student Senate meetings.

Student Services Fee
A student services fee is charged on a semester basis at the time of registration. Fees may vary semester-by-semester as established by the Board of Directors. The Student Senate budgets the use of this fee in cooperation with the Student Development Office. The fee provides access to the Eagle Fitness Center, admission to NUSG events, the cost of the University yearbook, publication of the student newspaper, admission to regular season NAIA home athletic events, access to participation in intramural and other recreational athletic activities, and other co-curricular student programming. All Kirkland campus traditional undergraduate students taking 7 or more credits are required to pay this fee.

Student Organizations
A wide variety of student organizations on campus provide opportunities for students to link with their peers who have similar interests and passions. With ever expanding genres of clubs ranging from academic honor societies to student business associations, and special interest groups, there is something for every member of the student community! These student-initiated organizations enrich the atmosphere of Northwest University providing avenues for students to express their passions, develop leadership and management capacities, and have fun in the process.

SPIRITUAL FORMATION

Chapel
Chapel is one of the primary forums for the development of student spiritual formation. Spiritual values are continually emphasized in addition to several weeks set aside for various lectureship series, teaching chapels, and mission emphasis.
Attendance in Chapel is required for all Kirkland traditional undergraduate students at Northwest University. An attendance record is maintained. All students are expected to arrange their schedules to permit regular attendance at these important corporate worship events.

**Chapel Small Groups**

In an effort to foster relationships, community, and spiritual growth through the fellowship chapel small groups are established on a "free-market principle" that is organized by areas of student interest. Each group has its own vision, purpose, function or focus upon which its identity is established. All of the chapel small groups are open to any student can relate to or are passionate about the focus of that particular group. Small group meetings are approved to meet partial fulfillment of the chapel attendance requirement.

**Christian Service**

In keeping with the vision and mission statements of Northwest University, students are preparing to help others through Christian service. All students are encouraged and expected to participate in some aspect of the Student Ministries and Missions programs, and in local church ministry.

**Church Attendance**

While at Northwest University, students are expected to faithfully attend a local church where they will be available for ministry.

**Student Ministries**

This organized student outreach consists of a variety of ministry opportunities - children's ministry, campus ministry, community ministry, evangelism ministry, youth ministry, and prayer ministry. Student ministries provide practical experience in specific areas of Christian education, world missions (including summer and short-term assignments), pastoral care, pastoral ministry, church music, youth ministry, etc. The Campus Ministries Office oversees Student Ministries and provides information and referrals for ministry opportunities, on and off campus. Student teams selected and approved for summer ministry also provide an outreach of service for interested and qualified students.

**World Wide Outreach**

Northwest University students are given opportunity and encouragement to be active in U.S. and world missions. This ministry provides outreach and counsel for projects, fairs, brunches, conventions, prayer groups and internships, all related to world mission ministry.
Northwest University is a private, church-related university. Therefore, no operating funds from taxes or public funds support its operation. Each student is charged tuition and certain fees which cover about eighty-five percent of the cost of his/her education. The remainder of the cost is provided by gifts from friends of the University, supporting districts, endowment income, and other earnings. For a list of the tuition charges and fees, see the Tuition and Fee Schedule in this catalog. (For a list of applicable College of Adult and Professional Studies programs, Northwest University Sacramento Campus, Northwest University Salem Campus, and Graduate Program charges and fees, see the appropriate Program’s Catalog or Student Handbook.)

FINANCIAL PAYMENT

Room And Board Information
The board/room charge is required of all students living in the residence halls, and entitles students to meals beginning when the Dining Hall opens to the general student population before semester classes begin and expiring with the noon meal on the last day of final examinations each semester. The University reserves the right to change the rates during the year if it is deemed necessary.

Educational Benefits
Northwest University is approved as an educational institution for the training of veterans or their dependents. Applications are available on the Department of Veterans Affairs website at www.gibill.va.gov. Those qualifying under the extended Social Security Act should apply for benefits at their local offices of the Social Security Administration. The University will make the proper certifications as to enrollment and attendance after the student has enrolled in the University.

Financial Policy
University financial policies are outlined in the Master Financial Agreement. This agreement is signed through the initial registration process.

Payment of Accounts
The regular school year is divided into two semesters of approximately four months each, and tuition is based on the semester. It is the policy of the University that there can be no outstanding past due account at registration. All past due and old accounts must be settled or alternate arrangements must be agreed upon with the Student Accounts Office prior to registering for the following semester. The payment of accounts policy also applies to those qualifying for veteran’s benefits and outside scholarships.

Pay In Full Plan
Tuition, fees, and housing charges are to be paid in full before the first day of classes each semester unless prior arrangements have been made with the Student Accounts Office. All students must sign a contract/promissory note agreeing to payment terms prior to the start of classes each semester.

Monthly Payment Plan
Tuition Management System (TMS) - Students who wish to make monthly payments based on the annual cost of tuition, housing and fees will enroll with Tuition Management System. TMS is a budgeting service that allows the student to pay an entire year’s education costs in monthly installments. They provide an annual ten or nine month payment plan to help students manage the cost of education. A single semester plan is also available, if necessary.

A budget is set up with this agency based on estimated charges less estimated financial aid (including loans) for the entire academic year/semester. The first payment must be received by TMS not later than July 1 (10 pay plan) or August 1 (9 pay plan) of each year to enroll for this option. Those enrolling with TMS after August 1 include June and/or July payments with their application. Although there is a $125.00 annual enrollment fee for this plan, there are no finance charges to non-delinquent participants.

Late Fees
Northwest will charge late fees as follows: For balances between $0.00 and $25.00, the late fee will be zero. For balances between $25.01 and $199.99, the late fee will be $50.00 or the equal amount, whichever is less. For balances above $199.99, the late fee will be $100.00.
In the fall semester, the late fee will be assessed on September 30, October 31, November 30, and December 31 after deducting any anticipated aid as determined by the Financial Aid Office.

In the spring semester, the late fee will be assessed on January 31, February 28, March 31, and April 30 after deducting any anticipated aid as determined by the Financial Aid Office.

TMS - Tuition Management system will assess a $55.00 late fee for each late payment made on the monthly plan established at the beginning of the school year/semester the student is attending. Please contact TMS for further details. 

### Past Due Accounts
A student is considered past due if:

- payments are not made by the dates on which they are due.
- financial aid is not credited to the student’s account by the due date as specified in the promissory note (typically the last business day of the month following registration).
- any charges, which were not included in the payment plan, still owe on the last business day of the month in which they were charged.

Students failing to meet the payment schedule will be contacted through campus mail and by telephone by the Student Accounts Office. The student may also be contacted by campus registered mail and Northwest University personnel which may include staff from the Student Development Office and/or professors. Efforts to communicate will be made for a period of approximately 45 days.

If, after these efforts are accomplished and it is clear that the student is aware that payments are delinquent, reasonable attempts to address the financial obligations have not been made, the student will no longer be allowed meal card privileges, and/or Internet privileges.

If the financial problems persist, on-campus resident students will no longer be allowed to live in on-campus housing, and may be suspended from class until a solution is reached between the Student Account Office and the student. Students failing to respond will be withdrawn from the University by the Provost.

Since financial responsibility is part of the educational process, the Student Accounts Office encourages students to meet and council with the University personnel any time a financial problem arises. Many problems may be avoided and/or resolved with communication. Communication is the key to successful fiscal responsibility.

The University reserves the right to assign delinquent accounts to an agency for collection and/or attach student’s credit report. The venue of defaulted Federal Perkins Student Loans shall be in King County, State of Washington or as determined by the holder of the defaulted Promissory Note.

Applying for a Work Study Position

Points to Remember

- An offer of Work Study is not a guarantee of a job.
- Students may not earn more than their eligibility.
- Students may not begin working until the appropriate employment forms are submitted to the Work Study Coordinator.

If a student is not eligible for the Work Study program, they may seek employment through the Job Search Program at Northwest University. This program assists students in locating a job that is best suited for them. Information regarding the Job Search Program can be obtained through the Human Resources Office.

Summer Financial Aid

To be eligible for summer aid, you must have filed a Free Application for Federal Student Aid (FAFSA), and the Financial Aid Services Office must have received the results of that application for the current school year. For example, if you are applying for financial aid for the summer of 2012, you must file a 2011-2012 FAFSA by June 30th, 2012. Applications for summer aid are available in the Financial Aid Services Office the first week of March.

Summer aid is determined by the number of credits a student is enrolled for. The minimum number of credits you must be enrolled for to be eligible for Federal Stafford Loans is six credits. The financial aid that is available for summer is:

- Federal Stafford Loans: This aid is available if you have eligibility remaining. You may borrow a certain amount each school year based upon your class standing and eligibility.
- Pell Grant: This aid is available if you have remaining eligibility.
- Washington State Need Grant: This aid is available if you have remaining eligibility, and NU has remaining funds.
- PLUS Loan: This aid is available if your parent is approved for the loan.
- Alternative Loan: This aid is available if you are approved for the loan.

Tuition Credits are not available for Summer University (Minister, Missionary, Family, etc.). You are notified as to what financial aid you are eligible for at the beginning of April.

Special Circumstances

Sometimes your family may have a change of employment, additional expenses, or emergency situations. The Financial Aid Services Office has a “Special Circumstances Form” which allows you to specify your unique situation. You will need to provide documentation along with this form, and it takes approximately four weeks to process. Only one special circumstance is processed during your time at Northwest University.

APPLICATIONS FOR FINANCIAL AID

Apply for financial aid at Northwest University by submitting:

- an Application for Admission to Northwest University
- a Northwest University Financial Aid Application
- a Free Application For Federal Student Aid (FAFSA)

The Northwest University Financial Aid Application and the FAFSA Application are available online at http://www.northwestu.edu/financialaid/apply and www.fafsa.gov.

Eligibility

To be eligible for federal and/or state financial aid:

- a student must be a U.S. citizen, or a permanent resident of the U.S., or an eligible non-citizen.

- a student must not owe an overpayment on any Title IV educational grant or be in default on a Title IV educational loan, and must maintain satisfactory academic progress.
- full-time students receive priority consideration for campus-based funds.

Disbursement of Aid

Student financial aid is credited to individual student accounts in equal disbursements by semester. The amount disbursed each semester is indicated on the student’s Award Letter. Most often an award is disbursed in two equal payments, half each semester at the beginning of the semester. For example, a $1000 grant will be disbursed $500 for fall semester and $500 for spring semester. Student financial aid is disbursed after the Add/Drop Period.

SATISFACTORY ACADEMIC PROGRESS (SAP)

All students must be making satisfactory academic progress in an eligible degree or certificate program. Financial aid applicants are required to meet the standards described below for all terms of attendance, including
You may appeal financial aid suspension in writing to the Financial Aid Services Office.

For a detailed copy of the Satisfactory Academic Progress Policy, please contact the Financial Aid Services Office or visit http://eagle.northwestu.edu/finaid.

**WITHDRAWING FROM CLASSES**

Students who receive financial aid during the semester in which they withdraw are not considered to be making satisfactory academic progress. Future aid will be cancelled and they will not be eligible to receive additional financial aid. Students can receive information as to what must be done to regain eligibility for financial aid should they choose to return to Northwest University.

The date of withdrawal will be based on the day that the student contacts the Registrar’s Office and indicates a desire to officially withdraw or the last date of documented attendance, whichever is later. For Financial Aid purposes for students who unofficially withdraw from Northwest University (cease to attend classes without notifying the Registrar), they will be considered to have withdrawn after 50% of the semester has passed or the last date of documented attendance, whichever is later.

The Student Accounts Office will determine the eligibility for a refund of charges for the semester based on the withdrawal date. Tuition will be charged according to the chart below based upon the withdrawal date. Tuition is charged based on the highest number of credits registered for during the semester:

According to federal regulations, federal funds must be returned to federal programs based on the percent of the term that a student is no longer enrolled. The Financial Aid Services Office will determine how much of a student’s federal aid was “unearned” as defined by the federal regulations, and then return the “unearned” aid in the following order to the programs from which the student received aid:

- other Title IV Programs

Institutional aid, including but not limited to grants, scholarships, and tuition credits may be removed from the student’s account during the semester of withdrawal.

If you have received federal and/or state aid in the form of cash to assist you with non-institutional charges, you may need to repay up to 50% of the grant funds that you received. This may include:

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Federal Teacher Education Assistance for College and Higher Education Grant (TEACH)
- Washington State Need Grant

**Satisfactory Academic Progress**

To remain in satisfactory academic progress, you are required to complete at least 67% of credit hours attempted each semester.

If you complete less than 67% of the credit hours attempted, or if your grade point average falls below the required level, you will be placed on probation for unsatisfactory academic progress.

Your financial aid will be cancelled if you do not successfully complete 67% of credits attempted at the end of two terms, or if your cumulative grade point average falls or remains below the required level after two terms, or you do not successfully complete at least 6 credits each semester. **VERIFICATION**

Verification is a federal process which requires Northwest University to check the accuracy of the information you and/or your parents reported when applying for Federal financial aid. Information is verified by securing additional documentation. There are a number of items that must be verified. The documents necessary to verify these items are described on your Award Letter. Corrections to the data will be submitted to the United States Department of Education, if necessary. A revised Award Letter of any specific actions needed or changes to your financial aid award will be mailed to you. An award will not be disbursed and Federal loans will not be originated until verification is complete. If documents are not submitted within 30 days of request, or one month prior to the end of the semester, the offer of financial assistance may be cancelled.
The academic services and policies of Northwest University are overseen by the Provost’s Office and administered through the academic schools and colleges, and various academic services offices. Their goal is to ensure that students obtain and demonstrate the knowledge, skills, and attitudes described by the academic programs throughout this catalog. These programs balance the high standards established by the University’s faculty and its accrediting associations with the high cost of attending an educational institution. The outcome is an educational experience designed to deliver and verify students’ mastery of the essential elements expected of University graduates in today’s society. This will enable them to fulfill the University’s mission of preparing students for service and leadership.

**ACADEMIC SUPPORT OFFICES**

**Provost’s Office**
The Provost’s Office coordinates all academic services. It produces and maintains the academic calendar for the University. It considers all academic petitions and appeals. It also monitors students’ academic progress, including producing academic honor rolls and probation/suspension notifications. The Provost’s Office is located in the Randall K. Barton Building at 11220 NE 53rd on the southeast corner of the campus.

**Registrar’s Office**
The Registrar’s Office processes academic course registrations, monitors progress towards program completion, and maintains records of academic achievement. It certifies student enrollment and serves veterans utilizing their educational benefits. It also verifies all courses transferred into the University intended to be applied to students’ degree requirements. The Registrar’s Office is located in the Davis Administrative Center.

**Academic Success and Advising**
The Jacquelyn F. Randolph Academic Success and Advising Center, located in the Ness Academic Center, helps students achieve their goals while at Northwest University. Academic Success is a valuable referral service, supporting students in their adjustment to college life; helping connect students with tutors; assisting students in obtaining the support they need from various University services; coordinating seminars for academic success; and arranging classroom accommodations for students with disabilities. Academic Success works closely with other departments, such as Residence Life, Campus Ministries, and Counseling/Career Services, to assist students in becoming more effective servants in the church and the world.

In addition to the Office of Academic Success and Advising, each student is assigned a faculty member as an academic advisor. Generally, the faculty member is part of the academic discipline chosen by the student as a major.

With the coordination of the faculty as advisors, the Office of Student Success, Provost, and Student Development services, every student receives intentionally tailored attention to provide the means to achieve identified goals for the glory of God.

**Writing Center**
The Writing Center, located in the Ness Academic Center, is overseen by English faculty and selected tutors to assist students in their research and writing projects. Operated throughout the academic year, students are supported through the many stages of defining the paper, researching the topic, and producing the report. The hours of operation are posted each semester, with the ability to make appointments with the Lab at other times always available.

**Academic Computing**
The Student Computer Laboratory, strategically located in the Hurst Library, provides students and classes with the most current software and hardware to support their academic program needs. This facility provides network and Internet access to students for academic, professional, and personal research. Operational hours are posted in the Library.

Personal computers are an important part of the student’s educational experience. Assistance is provided through the University’s Information Services department, via their website: [http://eagle.northwestu.edu](http://eagle.northwestu.edu). Assistance is also available by contacting the Help Desk at [help@northwestu.edu](mailto:help@northwestu.edu).
Institutional Review Board
The Institutional Review Board (IRB) regulates the care of human participants and non-human subjects in research. In particular the job of the IRB is to establish and enforce ethical guidelines that protect human participants from harm, respect their dignity, and ensure the appropriate treatment and use of non-human subjects (animals). The IRB especially seeks to protect those who have limited understanding of the risks of their participation or who have diminished decision-making abilities. Thus all potential research projects that involve the use of human participants or animal subjects need to be reviewed by this board prior to their implementation. The IRB reports to the Academic Affairs Committee.

Membership
The National Institute of Health specifies that the board must have at least five members who represent a variety of backgrounds. In particular federal policy indicates that at least one member of the committee must be a scientist, one member a non-scientist and one member must not be affiliated with the institution in question.

Library
The D.V. Hurst Library is the information center on campus. The Library contains over 150,000 cataloged items, including over 50,000 eBooks – additionally, there are over 19,000 periodical titles, most of them available as full-text electronic documents. The award-winning Library web page (http://library.northwestu.edu) provides easy access to the local catalog of Northwest University’s library holdings. The web page also provides links to Online Databases and online scholarly reference resources. The online databases provide full text articles as well as citations to find articles; articles or citations can be printed, e-mailed or downloaded. All of the databases are available to registered Northwest University students wirelessly from computers on campus or any computer globally that is connected to the Internet (over 50 computers are located in the Library). Many other resources are available at the Library web page, such as citation and style guides for term papers, the RefWorks citation software, and Research Guides for specific departments and majors, such as Education and Nursing. Finally, the Hurst Library is home to special collections, such as the Pauline Perkins Memorial Library, a collection of Judaic/Messianic materials, and the Pentecostal Collection.

Librarians are available for consultation for any information needs, and specific queries can be sent via e-mail to library@northwestu.edu.

In addition to the resources of the Hurst Library, all Northwest University students have borrowing privileges with a group of local academic libraries, known as the PSAIL (Puget Sound Academic Independent Libraries) Consortium. They include:
- Pacific Lutheran University (Tacoma)
- Saint Martin's University (Lacey)
- Seattle Pacific University (Seattle)
- Seattle University (Seattle)
- University of Puget Sound (Tacoma)

ACADEMIC POLICIES AND PROCEDURES

Academic Honesty
Northwest University expects honesty from students in all areas, including their academic lives. Academic dishonesty is a serious violation of Christian standards and may result in the student receiving an “F” in the course, being dismissed from the course, or possibly being dismissed from the University. Instances of academic dishonesty are typically reported to the Provost’s Office.

Academic dishonesty includes cheating on assignments or examinations, submitting the same (or essentially the same) paper in more than one course without prior consent of the current assigning professor(s), sabotaging another student’s work, and plagiarizing. Plagiarism is defined as “using someone else’s ideas or phrasing and representing those ideas or phrasing as our own, either on purpose or through carelessness” (MLA).

Any student disciplined by a faculty member for alleged academic dishonesty has the right to appeal the disciplinary action. The student should initiate his/her appeal according to procedures outlined in the Northwest University Student Academic Appeals Policy, which is available in the Provost’s Office or the Student Development Office.

Academic Load
A credit hour approximates not less than one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks, or the equivalent amount of coursework via an alternative time or modality.

University instructors assume two hours of outside study for each hour in class. Thus, a student carrying a fifteen-credit academic load has a forty-five hour work week. Students who must continue employment while attending the University should, therefore, reduce their loads to maintain a manageable work week. A student working more than twenty-five hours per week should limit his or her academic load to 13 credits. If the student is working
more than 33 hours the academic load should be limited to 10 credits.

**Student Category – Undergraduate Students**
- Full-time........................ 12 or more credits in a semester
- Part-time.......................... 1-11 credits in a semester
- ¾-time ............................. 9-11 credits in a semester
- ½-time .............................. 6-8 credits in a semester
- Less than ½-time .............. 1-5 credits in a semester

**Student Category – Graduate Students**
- Full-time.......................... 9 or more credits in a semester
- Part-time........................... 1-8 credits in a semester
- ¾-time .............................. 7-8 credits in a semester
- ½-time .............................. 5-6* credits in a semester
- Less than ½-time ............... 1-4 credits in a semester

*Exception: graduate students enrolled in their respective graduate program’s thesis or internship course will be considered as registered as a half-time student.

Students must have their advisor’s permission to enroll for more than 18 credits in a semester. (See also tuition schedule for over 18 credits)

**Academic Registration**

Students register for classes during scheduled registration periods. Late registration is from Monday through Friday of the first week of classes. Students are not permitted to register for credit after Friday of the first week of the semester.

No one will be admitted to classes until his or her registration is completed and approved by the Registrar’s Office and tuition and fees have been paid or satisfactory arrangements have been made with the Student Accounts Office.

A student who registers for class but decides not to attend must notify the Registrar’s Office in writing before the First Day of Class. This notification will cancel the tuition and related charges, except for the Registration Fee. See the section Cancellation of Registration under Financial Information for more information.

**New Student Orientation**

Student Orientation Advising and Registration (SOAR) and Orientation Week are scheduled time for on campus sessions and activities to ensure a successful transition to life at Northwest University. SOAR is the preliminary advising, registration, and initial networking and preparation piece for incoming students.

**Academic Standing**
- Freshman: 0-29 semester credits completed satisfactorily
- Sophomore: 30-59 semester credits completed satisfactorily
- Junior: 60-89 semester credits completed satisfactorily
- Senior: 90 + semester credits completed satisfactorily

**Adding / Dropping Courses**

Students may change their registration through adding or dropping courses by filing a properly completed Add/Drop Form in the Registrar’s Office. After the Last Day to Add/Drop Courses, new courses cannot be added and courses cannot be dropped. (See withdrawing from a Course for additional details.)

**Anti-Plagiarism Software**

When academic dishonesty occurs, the teaching-learning process is undermined and students rob themselves of the educational benefit intended by the assignment. To assist students and faculty, Northwest University is utilizing Turnitin.com, an online plagiarism detection service that conducts textual similarity review of submitted papers. When papers are submitted to Turnitin.com, the service will retain a copy of the submitted work in the Turnitin database for the sole purpose of detecting plagiarism in future submitted works. Students retain copyright of their original work.

**Auditing Courses**

An auditor is a person who wants to sit in a class but not be held responsible for the course work. Enrolled students have space priority over auditing students. Out of courtesy, the auditor will participate in discussions as allowed after consultation with the professor. An audited class requires the prior permission of the professor and is not recorded on the student’s transcript. Online courses are not available for Audit.

Junior and senior non-music majors are allowed to audit private music lessons for no credit and will be charged the regular Applied Music Lesson fee and the Undergraduate Course Auditing fee. Declared Music Ministry and the Bachelor of Music will also be allowed to audit applied music lessons that are not a requirement for their major.

Graduates of Northwest University are allowed to audit one undergraduate course per year free of tuition.

Fees specific to the class (books, materials, lab fees, etc.) will be the responsibility of the auditor. (See the Tuition & Fees page for tuition and fees that may be associated with auditing a course.)
Class Attendance

Classes are conducted with a view to helping students develop in knowledge and character. Student's attendance is assumed. If absences occur, the student is responsible for work missed. Because classes differ in purpose and character, individual instructors determine their specific requirements in course syllabi. All faculty include their attendance policies, if any, and define absences, tardiness, early exits, and the effect that these may have upon grades. Appeals relating to attendance are addressed first to the instructor.

Class absences necessitated by required participation in University-sponsored activities are excused through the Provost's Office. The faculty or staff member submits a list of students participating, and the Provost’s Office informs instructors of times the students are to be excused.

Limitations on absences impacting a student’s grade due to missed assignments or activities are as follows:

If a student is excused from a class through the Provost’s Office, and if the excused absence includes an activity in which participation in the activity affects the grade, the student will be given an opportunity to make up the activity without incurring a grade penalty for the absence. The make-up can occur before or after the missed class, at the discretion of the instructor. The student is solely responsible for making contact with the instructor prior to the absence. This limitation on grade penalties does not apply to activities that are essential to the completion of the class and that cannot be reasonably rescheduled (for example, clinical responsibilities in a Nursing practicum class). If a student does not reach agreement with an instructor on the application of this limitation, appeal may be made according to procedures outlined in the Northwest University Student Academic Appeals Policy which is available in the Provost’s Office and the Provost link on the Eagle website.

If an instructor specifies a grade penalty for absences without distinguishing between excused and unexcused absences, the student will be allowed no less than a total of the number of absences required by her or his university-sponsored activities, plus the number of days the class meets in a week.

If a student is absent from all classes for more than two weeks consecutively without contacting the Registrar or Provost to explain the reason for his or her absences, the University has the authority to administratively withdraw the student from all course enrollments and to assign grades of “WZ” to each course.

Class Eligibility

Before enrolling in any course the student is responsible to ensure all prerequisite courses or requirements have been fulfilled. In general, freshmen take 1000-level courses, sophomores 2000-level, juniors 3000-level, and seniors 4000-level courses. Students are permitted, however, to take courses below and one level above their academic standing. For example, a sophomore may be allowed to take courses numbered 1xxx - 3xxx. Exceptions to prerequisites or eligibility for a specific course must be approved by the instructor.

Class Schedules

Most classes are scheduled in fifty or seventy-five minute periods. Normally the instructional day begins at 8:00 a.m. and runs until 9:20 p.m. during weekdays. Selected courses may meet on Saturdays. Two chapel services are scheduled each Monday, Wednesday and Friday to accommodate student schedules. The student arranges a schedule according to the requirements of his or her own program. The University reserves the right to cancel any courses for which there is not sufficient registration.

Course Repeats

Students may repeat any course for the purpose of changing a grade. The latest completed course grade is considered the grade of record as it pertains to credit toward graduation and to the official transcript. Recalculation will be reflected in the semester’s Cumulative GPA. (Grades of W and WZ are not considered completed course grades.)

End of Term Assignments and Final Exams

To ensure that students are able to focus their attention more fully on preparation for their final exam, Northwest University has the following guidelines:

- During the last three weeks of the semester and during finals week, all written assignments, daily assignments, papers, presentations, projects, exams or quizzes should be due only if they were part of the original course syllabus.
- To provide students adequate time to prepare, final exams and major unit exams must be given during finals week.
- Requests for exceptions to this policy must be made by departments to the Academic Affairs Committee. During the last week of classroom instruction every effort should be made by the campus community to minimize assignments and campus activities.

Enrollment Certifications

The Registrar’s Office certifies official enrollment verifications after the Last Day to Add/Drop Courses.
Online Courses

The University offers an increasing number of online courses. Their scheduling falls within the academic term in which they are offered, although more restrictive assignment time frames may be required for specific courses. Due to the unique nature of online courses, their dependence on the student’s learning style and time management skills, and the fact that assignment scheduling may not match the traditional academic calendar:

- enrollment in online courses requires specific advisor approval, and
- students are limited to enrolling in one online course per semester. (College of Adult and Professional Studies programs, graduate students, and non-matriculated undergraduate students are exempted from this limitation.)

Special Courses

Periodically, the University offers students the opportunity to register for courses that do not meet in the traditional classroom format. At times, a Special Topic may be offered over a specific area of study to enrich the curriculum. At other times, a student may desire to work with a faculty member through Independent Study or Guided Research in a specific discipline. The Courses of Instruction section lists Special Courses and a brief definition of each. In all cases, a professor will ensure the proper quantity and quality of work assigned and performed. The student’s advisor must approve the registration schedule, including Special Courses. Ultimately, the student is responsible to ensure that all registered courses satisfy specific degree requirements.

Independent Study Special Courses

**Independent Study Course** - A course specifically formatted to be delivered by a professor to individual students according to the individual needs and learning style outside of a regular classroom setting. An IS course requirements and expectations are communicated through a course syllabus/contract that specifies the nature and extent of interaction between the student and instructor and the expectations for satisfactory course completion. Based on the nature of the course and the student, the instructor of an IS course may require a number of face-to-face meetings.

- In addition, IS courses may also meet or be substituted for a regularly offered course, with the approval of the instructor and dean responsible for the subject matter. It is the responsibility of the instructor and Dean to ensure that the learning experience through the IS course is comparable to that of an associated classroom course.

- The instructor’s Dean has full responsibility for quality control, including the selection of appropriate faculty.

- IS courses follow the established semester schedule for the department through which they are offered, including add/drops, withdrawals, and grade reporting unless specifically described differently in the contract.

- IS courses will carry an additional per credit fee of 20% of the current “over 18 credit” tuition rate. The instructor receives this amount less a $20 per credit Administrative Fee.

Process:

1. IS courses are requested by the student in conference with the academic advisor. They begin completion of the Request for Independent Study form.

2. The student can at this point register for an INDP 4801/2/3 “Independent Study – Pending” course via PowerCAMPUS Self-Service. This ensures that the Registrar and Accounting knows that the student intends to register for an Independent Study course and that the request is being processed.

3. The dean of the course’s department contacts a prospective instructor. The course instructor of regularly offered courses has the first choice of refusal. After that, fulltime NU instructors are preferred, although adjunct faculty can be utilized depending on the topic and nature of the course.

4. Once the instructor is selected, a syllabus/contract is designed by the instructor (often in consultation with the student) for the specific IS course and attached to the Request for Independent Study form. The packet is then submitted to the course’s dean for final approval.

5. Copies of the Independent Study form and syllabus are sent to the student, student’s advisor, appropriate major coordinator, and Provost as information.

Summer University

The Summer University semester is designed to provide courses in areas of selected interest for enrichment and acceleration of students’ progress toward graduation. The schedule is designed in a concentrated manner so as to be contained within one- to three-week sessions. From time to time shorter seminars and workshops are scheduled with guest lecturers who have expertise in special topics of current significance or professional value. Summer internship programs and practicums are also registered as part of the summer semester. A current summer course schedule may be obtained from the Registrar’s Office.

The Last Day to Register and Last Day to Add/Drop Courses for Summer University is the end of the second
day of classes for that session. Some course assignments, independent studies, practicums and internships may extend through August. The applicable course schedule includes the exact dates.

Withdrawal from a Course

After the Last Day to Add/Drop Courses, students can withdraw from a course during the Course Withdrawal Period which is through the end of the 12th week of classes. In this event, the course remains on their transcript as a permanent part of their academic record, with a permanent grade of “W.” Course withdrawal is not allowed after the Course Withdrawal Period. In the event a student has stopped attending classes in a course, as evidenced by missing over two consecutive weeks of classes without the instructor’s permission, a student may be Administratively Withdrawn from a course. In this event, the course grade will be assigned as a “WZ.”

Withdrawal from the University

Students may withdraw from the University up through 5:00 PM on the Last Day of Classes. Withdrawals from the University (withdrawing from all courses in a semester) may be made by obtaining the proper form from the Registrar’s Office, completing it, securing appropriate signatures, and filing it with the Registrar. If it is impossible to follow this procedure because of illness or emergency, the student must notify the Registrar within one week after leaving the University. The University reserves the right to require a letter of consent of parents or guardians for students less than 21 years of age.

If a student is absent from all classes for more than two weeks consecutively without contacting the Registrar or Provost to explain the reason for his or her absences, the University has the authority to administratively withdraw the student from all course enrollments and to assign grades of “WZ” to each course. The official withdrawal date for academic purposes will be the last date of class attendance as certified by faculty and verified by the Registrar’s Office. The official withdrawal date for financial obligation purposes will be two weeks after this verified date.

TRANSFER OF CREDIT INTO NORTHWEST UNIVERSITY

Transfer credits are usually considered during the admissions process, but at times enrolled students augment their schedules with credits from other institutions. All credits transferred into Northwest University after enrollment must be specifically approved to ensure applicability to the student’s degree program by the Registrar’s Office and the Dean of the school or college that offers the course for which the course applies. See the Northwest University Credit Transfer Guide for further details.

The flexibility built into the Core Curriculum helps transfer students utilize as many of their credits as possible. Additionally, transfer students benefit from the following provisions:

- When transfer students bring in courses that fulfill the Humanities and Social Science requirements, the Writing Practice standards do not apply.
- Transfer students can fulfill the Humanities requirement by transferring in nine credits from any two of the specified disciplines.
- Transfer students 20 years of age or older who bring in 47 or more transfer credits may replace UCOR 1052 Identity and Vocation with an elective course.

Nontraditional Sources of Credit

Credits through Testing – Northwest University accepts credits earned through the Advanced Placement Testing Program (AP), International Baccalaureate (IB), the College Level Examination Program (CLEP), and the DANTES Subject Standardized Tests (D.S.S.T.). Recommendations regarding college credit are made by the Registrar.

Language Testing Policy – Students wishing to earn foreign language credit through testing will now do so using ACTFL (American Council on the Teaching of Foreign Languages) exams. Northwest University will accept a total of 12 credits, a maximum of 6 credits earned through OPI (Oral Proficiency Interview) or 12 credits earned through WPT (Written Proficiency Test). 3 WPT credits may be applied toward the Core Curriculum Humanities requirement and additional credits count as elective credits. Complete policy and Test links listed on Provost’s website.

http://eagle.northwestu.edu/academics/office-of-the-provost

Military Credit – Those having had military service may petition the Registrar’s Office for credits based on learning through military experience. Northwest considers the recommendations of the American Council on Education (ACE) in evaluating military-based credits.

Extension & Correspondence Credit – All credits earned through correspondence must be completed prior to the beginning of the final semester preceding graduation. Students should take no more than two correspondence courses concurrently, and correspondence courses taken during the academic year should be considered to be part of the student’s total academic load.
Prior Learning Assessment (PLA) Credit – Credit can be requested for learning from experiences that occurred outside of a traditional classroom setting. Students may submit a portfolio documenting such learning. Students are charged a CPL Assessment Fee when they submit a previously completed license or credential for assessment by a Northwest University content expert. Students are charged a PLA Assessment Fee per credit requested, when they submit a portfolio demonstrating their prior learning acquired in a non-academic setting for assessment by a Northwest University content expert. PLA Evaluation is supervised by the Director of the College of Adult and Professional Studies.

Traditional Sources of Credit

Transfer of Credit from Regionally or ABHE Accredited Colleges and Universities

Students desiring to transfer to the University from another institution accredited by one of the six regional associations or by the Association for Biblical Higher Education (ABHE) must follow the general instructions for admission and must see that transcripts of previous college work are sent to the Admissions Office. Course work in parallel courses or areas of instruction will be considered for transfer provided that they show a grade of C- or better. (Some majors may have a higher grade requirement for some courses.)

Transfer of Credit from Non-Regionally or non-ABHE Accredited Colleges and Universities

Academic work presented from colleges and universities that are not accredited by one of the six regional associations or by the Association for Biblical Higher Education (ABHE) is subject to the following limitations and guidelines:

- transfer from all such sources is limited to a total of 30 semester credits;
- courses are considered on a course-by-course basis;
- acceptance of such credits is dependent upon the University’s evaluation of the equivalency of course work and level of instruction;
- all such transfer credit is considered at the time of admission or readmission to the University;
- transfer credit from such sources must be validated by completion of a minimum of two semesters enrollment and 30 credits at Northwest University with grades of C- or better, and possibly by examination;
- only evaluations and commitments made in writing by the Registrar’s Office will be considered as being applicable;
- college-level work considered occupational or remedial is not recognized for transfer; and
- enrolled students desiring to transfer credits from such institutions must obtain prior written approval from the Dean of the school or college into which the credits are to be transferred.

ALTERNATE WAYS TO EARN CREDIT

Credit by Prior Learning Assessment (PLA)

Students may obtain credit for college-level learning through a variety of ways at Northwest University. The term Prior Learning Assessment (PLA) covers college-level learning that occurs both in and outside of an academic setting. Northwest University follows the standards for assessment of college-level learning as established by the Council for Adult and Experiential Learning (CAEL). PLA covers learning documented by the Portfolio process, Certified Prior Learning (CPL) as determined by national accrediting agencies, and credit obtained through the College-Level Examination Program (CLEP) or the DANTES Subject Standardized Tests (D.S.S.T).

- Portfolio: Students must consult with the College of Adult and Professional Studies to develop a Portfolio that is designed to document the college-level learning they have acquired in a non-academic setting.
- CLEP/D.S.S.T: Refer to the CLEP/D.S.S.T Equivalency Chart to determine which exams meet Northwest University course requirements. Course Transfer Guide available through: http://eagle.northwestu.edu/registrar
- Certified Prior Learning (CPL): Nationally recognized licenses, certificates or on-the-job training may qualify for credit.

Credit by Advanced Placement (AP)

Students who have completed college-level studies in high school under the Advanced Placement Program may be granted credit in comparable college courses upon enrollment. Official Advanced Placement exam results should be sent to the Registrar’s Office for evaluation.

Credit by CLEP and D.S.S.T

Students may utilize the CPL process and apply credit from CLEP (College Level Examination Program) and D.S.S.T (DANTES Subject Standardized Tests) to their degree requirements. Students may transfer, upon admission to the University, the CLEP general examinations in the humanities, mathematics, sciences and social sciences. Students who believe they have advanced levels of knowledge equivalent to course offerings may contact

2013-2014 Northwest University Academic Catalog – 47
the Registrar’s Office for details concerning these tests. Not more than a total of 30 credits of PLA, ACE (American Council on Education), IB, AP, military, CPL, portfolio, CLEP and D.S.S.T can be applied to any degree. All credits earned through CLEP and D.S.S.T must be completed prior to the start of the junior year. Transfer students entering with junior standing will be allowed one semester to earn CLEP and D.S.S.T credits.

Other Standardized Proficiency Examinations

Standardized tests which can be used to show proficiency in areas that are not covered by AP, CLEP, and D.S.S.T may be available.

Departmental Exams

A formally admitted student may challenge certain university courses by examination without actually registering in the courses. The student is allowed only one opportunity to qualify for credit by examination in any given course. Credit by examination may not be counted toward the satisfaction of the residence requirement. Special fees are charged.

Continuing Education Unit (CEU)

The University awards the Continuing Education Unit to adults who participate in noncredit continuing education activities administered by the University. CEUs are not to be equated with the University credits applicable toward a degree. One CEU is equal to ten contact hours of participation in an organized continuing education experience. CEU credit is placed on the National Registry for Continuing Education and is useful where they may be prescribed by employment or professional training requirements.

GRADING AND GRADE POINT AVERAGES

Grade Points

Northwest University desires to provide students with an honest evaluation of their performance, not only in relation to other students in a particular course, but also in relation to the academic standards generally expected at institutions of higher education. To that end, and especially as a Christian university, we approach grading with a focus on the values of integrity, truth-telling, and respect. In the assigning of grades, these values apply not only to the relationship of the faculty member to the individual student, but also to the relationship of Northwest University to larger communities – social, regulatory, business, religious, and academic. Consequently, Northwest University seeks to uphold a grading system that carefully differentiates and provides an honest assessment of student performance, recognizes truly exceptional achievement, and maintains University credibility.

Grade Point Average

A student’s grade point average (GPA) is determined by dividing the total number of grade points earned during a given period by the number of credits for which the student was enrolled and received a regular grade during the same period. Students’ semester grade point average (SGPA) and cumulative grade point average (CGPA) are calculated and reported each semester. For example:

1st Semester:
15 credits attempted
47 grade points earned
SGPA = 3.133 (47/15 = 3.133)
CGPA = 3.133 (47/15 = 3.133)

2nd Semester:
17 credits attempted
50 grade points earned
SGPA = 2.941 (50/17 = 2.941)
CGPA = 3.031 (97/32 = 3.031)

3rd Semester:
17 credits attempted
65 grade points earned
SGPA = 3.824 (65 / 17 = 3.824)
CGPA = 3.306 (162 / 49 = 3.306)

Academic Probation

Entering students whose records reflect grade averages below “C+” level (2.3) are admitted on academic probation. Students are placed on probation if their cumulative grade point averages fall below:

1-29 earned credits................. 1.700 CGPA
30-59 earned credits............. 1.900 CGPA
60-89 earned credits............. 2.000 CGPA
90+ earned credits............... 2.000 CGPA

Probation is not intended as a punitive measure but as a warning with opportunity for improvement. Probationary students are under the supervision of the Provost’s Office or its representative during the period of probation. In order to ensure their concentration upon academic work during the probationary period, students on probation are restricted in their academic loads (no more than twelve hours plus P.E. activity), are restricted in their participation in certain University activities, and may be restricted in their work loads. To aid them in reaching
their potential, they may be required to attend special classes or counseling sessions. (A student averaging below 2.00 might be restricted, regardless of their academic standing.) When their cumulative grade point average rises above the stated levels, students are removed from probation.

**Academic Disqualification**

After each semester, all probationary students are evaluated to determine their eligibility for further enrollment at Northwest University. If their cumulative grade point average has been below the stated levels for two or more semesters, they are placed on academic disqualification (suspension). Exceptions may be made if the last semester’s grades indicate a clear improvement and average above 2.0.

Although not directly connected to Financial Aid disqualification, often students on Academic Probation or Disqualification also have their Financial Aid status affected. Students should consult the Financial Aid section of the catalog, and confer with the Financial Aid Office for further details.

Appeals for reinstatement after academic disqualification may be directed to the Provost on forms provided at the receptionist’s desk. Normally, at least one semester must elapse after disqualification before students will be considered for reinstatement, during which time they should have reevaluated their educational plans or taken steps to improve their scholastic skills. Disqualified students may also petition for permission to enroll as Special Students to take selected courses for personal benefit.

**Eligibility for Special Groups and Student Leadership**

All participants of special groups (e.g. varsity athletics, traveling choirs, speech teams) and student leadership must maintain a 2.00 GPA to qualify for membership in the group. In addition, the University reserves the right to establish minimum credit loads each semester for these students.

**Incomplete Grades**

A student may request an Incomplete grade for reasons of illness or emergency. A written request for an Incomplete must be submitted to and approved by the professor of the course before the final examination. The Incomplete must be removed from the record by the end of the succeeding semester. Otherwise, the grade automatically converts to an “F” on the student’s record.

**Grade Reports**

Grade reports are available via the University’s website following the close of each semester. Printed Grade reports can be provided by the Registrar’s Office upon written request.

**Honors**

Students who earn a current grade point average of 3.5 or better, while carrying twelve credits or more of courses that affect grade point average (i.e., non-pass/no credit courses), are placed on the Dean’s List, which is published at the conclusion of each semester. Full-time students with a current grade point average of 3.3 to 3.499 are placed on the Honors List.

The Awards and Honors Convocation program regularly includes the following awards:

**Student Life Awards** – Awards are made to one male and one female student whose life and influence are deemed exemplary.

**Academic Honors by Classes** – Awards are made to the non-graduating freshman, sophomore, junior, and senior with the highest cumulative grade point averages. Transfer students and College of Adult and Professional Studies students constitute their own class. Only grades earned at Northwest University are computed. The grades from at least two semesters as a full-time student must be available for consideration. For First Time Freshmen or transfer students current full-time enrollment in a second semester is required. A hardware award goes to the top qualifier, and all students above 3.8 receive certificates. No awards are made for averages below 3.0.

**Departmental Honors** – In those departments which offer majors, a hardware award is presented to the graduating major (or minor if there is no qualifying major) with the highest grade point average on all work done in the major department. At least half of the work must have been done at Northwest University. No awards are made for averages below 3.0.

**Graduation Honors** – Awards are made to the Associate degree graduate and Baccalaureate degree graduate who have the highest grade point average on all Northwest University work done toward graduation. Highest qualifiers automatically receive the awards regardless of other honors received.

**Special Recognitions** – Special awards are presented to students as conferred by Societies such as the American Bible Society and Who’s Who Among Students in American Universities and Colleges. Criteria and procedures for honoring students are outlined in the Faculty Manual.

**Conferring of Scholarships** – University awarded scholarships are presented to the recipients at the Convocation.

GRADUATION

Graduation Requirements

Credit Hours. Candidates must complete the prescribed minimum total credit hours for the degree or certificate in which they are enrolled.

Grade Point Average. Candidates must achieve a minimum 2.00 Cumulative GPA on all courses taken at Northwest University unless the student’s specific program has higher requirements.

Residency. Residence refers to course work completed at Northwest University. The following are required:
- a minimum of 30 semester credits;
- at least one 3-credit Bible or theology course;
- one-third of the major requirements;
- the final semester of course work must be completed at Northwest University;
- all graduates, at the time of graduation, must be enrolled or eligible to be enrolled for the semester in which they graduate (see Admissions, Reapplication).

Degree/Certificate Requirements

- All requirements for the degree or certification must be completed on or before the official day of graduation for that semester.
- Incomplete courses do not apply toward graduation until they are completed. Candidates who receive an Incomplete grade in a course required for graduation will have their graduation applications reclassified to the next semester or the semester in which the work and final grade are submitted.
- The catalog requirements in effect during the semester in which the student first enrolled are applicable, provided graduation is within six years from the end of that semester. (The summer semester may count as a part of the semester before or after it.) However, a student may graduate under the requirements of the current catalog. It is expected that the requirements of the catalog chosen will be followed as a whole.

Credit Limitations

- 30 credits of non-traditional credits, including Portfolio, CPL, ACE, AP, IB, military, CLEP, and D.S.S.T.
- 12 credits (Bachelor degree) or 8 credits (Associate degree) of ensemble music.
- 4 credits of physical education activity.
- 4 credits of UNIV 3561 Student Development Training.
- 3 credits of ENGL 2711 University Yearbook: Karisma.
- Students may earn additional majors as long as they satisfy the requirements for each major.

Citizenship. Candidates must have attained a satisfactory citizenship record, including chapel attendance requirements, as of the date of their graduation.

Financial. Candidates must have all accounts with the University paid in full to be eligible to graduate and participate in Commencement activities.

Second Bachelor Degree. Northwest University will grant a second Bachelor degree only if the student’s second degree is substantially different from the first Bachelor degree. The second degree will:
- require a minimum of 30 additional semester hours from Northwest University;
- include all courses required for the major;

Student Responsibility

While the University provides advisement services to its students through the Academic Success and Advising Office, faculty advisors, the Registrar’s Office, and other sources, the final responsibility shall rest with the student for fulfilling all requirements for graduation, including those identified in an official program audit. This shall include requirements resulting from program modifications affecting course offerings as may be adopted by action of the faculty.

Residency Requirements

At least one academic year (with a minimum of 30 semester credits) must be completed at Northwest University for every degree earned, and the final semester of work before graduation must be taken from Northwest University irrespective of the amount of previous work completed at Northwest University. One-third of the major requirements must be completed in residence at Northwest University.

A student registered at Northwest University may not receive credit for a concurrent enrollment at another institution without approval. Students interrupting their programs at the University may, upon returning, graduate under the requirements of the catalog in effect during the semester in which they first enrolled, provided graduation is within six years from the end of that semester. (The summer semester may count as a part of the semester before or after it.) However, a student may graduate under the requirements of the current catalog. It is expected that the requirements of the catalog chosen will be followed as a whole.

Graduation Procedures

Application Deadline. Applicants for graduation must file for graduation in writing with the Registrar’s Office the semester prior to the semester of graduation and no
Graduation Fee. All applicants for graduation are assessed at the time of application a fixed, nonrefundable Graduation Fee to cover the costs connected with the diploma and Commencement (whether or not the student participates in the public Commencement ceremonies). If the student cancels the application for graduation, the Graduation Fee is retained and applied when the student does graduate.

Graduation Audit. It is the responsibility of the student to arrange for an audit of his/her records in the Registrar’s Office to verify remaining graduation requirements.

Course Completion. It is the responsibility of the student to satisfactorily complete all course work and grade point average requirements as specified in the applicable academic catalog.

Course Completion Deadlines. Degrees are conferred each semester (including summer session). The deadlines for completion of all work in order to have the degree conferred are listed below. Since the awarding of a degree certifies that the student has met all requirements, students who do not complete all course work by these deadlines will be reclassified as graduating the next semester or the semester in which the work was completed, providing all course work is submitted by that semester’s deadline.

- For fall – the last day of final exams in December
- For spring – the commencement date in May
- For summer – the last day of term in August

Commencement Participation. No person will be presented for the public graduation ceremonies who has not been certified by the respective college officers as having satisfied each of the foregoing requirements. Exceptions can be made for pre-enrolled summer school students who will complete their requirements in the summer school session. Exceptions can also be made for those cross-enrolled in another institution in an approved enrollment where the terminus point overlaps that of the University.

Graduation Honors

Cum Laude – Students who have maintained a 3.500 to 3.699 grade point average in all their Northwest course work

STUDENT RECORDS

Transcripts

An official copy of a student’s academic record at Northwest University that bears the official seal of the University and the signature of the Registrar is referred to as a transcript. Requests for transcripts must be accompanied by the student’s signature and a $2.00 fee for each copy. Phone orders for transcripts cannot be accepted.

NOTE: Financial indebtedness to the University will prevent the release of a student’s transcript. If a student is delinquent (as determined by the Promissory Note) in his/her Federal Perkins Student Loan or NDSL payment, he or she will not be eligible to receive deferment, cancellation provisions, nor will academic transcripts be released.

Since the Registrar can only verify the authenticity of course work earned at Northwest University, transcripts entrusted to the University from other institutions cannot be duplicated and given to the student or other external individuals without the expressed written permission of the institution and the student.

CORE CURRICULUM

As a Christian university whose mission is to prepare students for empowered engagement with human need, we believe that God has a desire and design for every individual. Graduates realize God’s purpose and plan best when prepared with a broad foundation of personal skills and intellectual content. More than mere acquisition of knowledge – knowing must be combined with informed reasoning and appropriate attitudes. The Core Curriculum at Northwest ensures that graduates possess certain knowledge, attitudes, and skills identified as critical to be effective servant-leaders in today’s dynamic world community.

“Distinctively Northwest”
Northwest University’s Core Curriculum provides a broad exposure to the foundational disciplines commonly expected of students who have earned a university degree. However, at Northwest students explore these essential elements, which form a foundation for every major and each discipline, within a context of faith. We believe students benefit most when the entire curriculum, not just those courses in a student’s major, is taught from a Christian perspective with a focus on the integration of faith and learning.

Within this context of Christian faith and learning, Northwest’s Core Curriculum offers three additional advantages:

- **Focus on faith**: In addition to its strong Bible and Theology components, the Core Curriculum offers two distinctive courses—Identity and Vocation, and Faith in Society—which situate a student’s calling within a spiritual, ethical, and global framework.

- **Flexibility**: The Core Curriculum for Bachelor of Arts degrees creates a foundation of learning within a structure specifically designed to allow students to follow their curiosity and interests.

- **Writing excellence**: Because writing skills are so important for future success, almost all Northwest University courses contain a significant element of writing practice intended to strengthen writing across all disciplines.

**Transfer Students**
The flexibility built into the Core Curriculum helps transfer students utilize as many of their credits as possible. Additionally, transfer students benefit from the following provisions:

- When transfer students bring in courses that fulfill the Humanities and Social Science requirements, the Writing Practice standards do not apply.

- Transfer students can fulfill the Humanities requirement by transferring in nine credits from any two of the specified disciplines.

- Transfer students 20 years of age or older who bring in 47 or more transfer credits may replace UCOR 1052 Identity and Vocation with an elective course.

**Core Curriculum Outcomes**
To be prepared for service and leadership, Northwest University graduates must be able to think critically, to integrate their faith and learning, and to apply theory and knowledge in addressing life’s complex issues. Therefore, the goal of Northwest University is for its graduates to demonstrate the following knowledge, attitudes, and skills.

1. **Spiritual Development** – Graduates will demonstrate an understanding of the processes of spiritual and intellectual development that lead toward the goal of Christ-likeness.

2. **Communication Skills** – Graduates will demonstrate the ability to communicate effectively.

3. **Moral and Ethical Reasoning** – Graduates will demonstrate an ability to employ ethical reasoning in making moral judgments.

4. **Scientific Reasoning and Computational Skills** – Graduates will demonstrate scientific reasoning and computational skills.

5. **Humanity and Human Interaction** – Graduates will demonstrate understanding of human psychological development, creative expression, and social interaction.

6. **Global Awareness and Cultural Understanding** – Graduates will demonstrate an understanding of human cultural diversity and interdependency by effectively interacting and engaging with a culture other than their own.
CORE CURRICULUM REQUIREMENTS (60 CREDITS)

The Core Curriculum requirements below are for most Bachelor of Arts degrees. Bachelors of Science, Music, and Fine Arts degrees and Associate in Arts degrees satisfy the outcomes on the previous page through a slightly different set of courses. Refer to the appropriate degree sections in this catalog for specific degree requirements. Some majors may qualify or restrict the Core Curriculum Requirements.

The Mark and Huldah Buntain School of Nursing at Northwest University graduates scholarly professional nurses who practice from a uniquely Christian worldview and are dedicated to helping all human beings in pursuit of holistic health. Upon successful completion of the four-year pre-nursing courses and nursing curriculum requirements, students are prepared to sit for the national licensure examination leading to the Registered Nurse (RN) status in the State of Washington. This licensure allows graduates to practice professional nursing in health care systems across Washington State and seek reciprocal licensure in all states and territories of the United States of America or any nation in the world.

Program Clinical Requirements

Nursing students make application for admission into the nursing curriculum following completion of their designed pre-nursing courses that include required foundational sciences and general courses to meet the Core Curriculum requirements of the University. Background checks must indicate no criminal history;

5. A current and valid passport which expires no earlier than August after graduation;

6. Proof of health insurance for personal costs of health care.

Students successfully completing the Nursing Program of studies are awarded a Bachelor of Science (BS) with a major in Nursing degree. Entry into professional nursing practice occurs after successfully passing the RN licensure examination.

Summary Criteria for Admission into the Nursing Courses

- Successful completion of the Bachelor of Science degree’s Core Curriculum requirements with a grade point average (GPA) of at least “B” (3.00 on a 4.00 scale) and a grade of at least “B-” (2.7 on a 4.00 scale) in each of the following courses: College Chemistry II (organic chemistry and biochemistry), Anatomy & Physiology I and II, and General Psychology.

- Meet test score expectations as determined by nursing faculty on entrance competency exams for oral and written communication, reading, computation, and science.
• Assessment of applicant’s potential for success as a registered professional nurse by faculty and other credentialed professionals using data from interviews; a written self-analysis and essay answering specific questions; two reference letters speaking to the applicant’s character, leadership activities, and service commitment; Test of Essential Academic Skills; official transcripts documenting the applicant’s previous academic work; and an application fee. (See the Tuition & Fees page for additional fees associated with the School of Nursing.)

• Transfer students. Complete the same requirements for admission to the Nursing Program as other students of Northwest University. [Acceptance to the University is the first step but does not guarantee admission into the nursing curriculum. Questions regarding transfer status, acceptance of previous nursing courses completed outside of the Northwest University Nursing Program, and admission to the Program are managed by the Dean of the School of Nursing (hereafter, “the Dean”) or designated faculty.

Sequence of Course Work and Professional Nursing Practice

Pre-nursing students are identified upon application and entry to the University in order to assist them into the required courses of the Nursing Program. Nursing faculty are assigned to advise these students and carefully plan their sequential and orderly completion of the foundational course work and other requirements. Nursing faculty members become acquainted with their advisees and recognize individual qualifications that can enhance the students’ potential for successful professional nursing practice. Admitted first-year NU students who achieve a TEAS® (Test of Essential Academic Skills) score greater than or equal to 76% may enroll as a Pre-Nursing student. Pre-nursing students are required to complete the Nursing School Application for admission during the sophomore year, and must meet all admission requirements in order to be accepted into the nursing major.

Students begin their nursing courses as a cohort group and quickly immerse into a vigorous routine of classroom studies with clinical practice. The courses may include evening, night, or weekend learning experiences that a student is required to attend. At this time, students are required to reduce any outside employment to one shift per week that does not conflict with their clinical schedules. During the senior year, especially the final semester of intense clinical work that may be conducted abroad, students should plan to drastically reduce hours or take a leave of absence from their outside employment. When enrolled in 17 semester credits of nursing coursework, nursing students are not permitted to enroll in Northwest University non-nursing courses.

An overall GPA of 3.00/4.00 must be maintained each semester throughout the sequence of nursing courses, and the minimum passing score for any nursing course is 2.70/4.00. A student not meeting the minimum requirements of a lecture may not be allowed to participate in a related practicum course if faculty deems the situation to pose a safety concern.

A student who leaves the cohort group for any reason, such as, but not limited to, personal or academic, is required to meet with the respective faculty advisor to propose a new plan to the Dean for re-admission to the Nursing Program or consideration of other options.

Clinical nursing practice is conducted every semester of the nursing curriculum, always under the supervision of nursing faculty, and frequently in concert with professional nurse clinical mentors. The purpose of this tandem clinical practice with theory courses is to:

1. progressively develop proficiency in the applied science of professional nursing;
2. meet State licensure requirements; and national standards; and
3. build learner confidence in clinical nursing care management and leadership.

A fee, which is assessed on a per-credit basis and which supplements tuition, is charged for practicum courses that provide clinical experience. (See the Tuition & Fees page for additional fees associated with the School of Nursing.)

Nursing students must be committed to maintaining professional standards while in the practicum setting. Respect is an underpinning value of professional behavior. Demonstrating respect will uphold the trust that patients, clients, health care workers, faculty, and fellow students place in each nursing student. These other parties will continually evaluate each student’s professional behavior as expressed in such ways as positive initiative, teamwork, conservative and clean appearance, reliability, excellent attendance record, punctuality, and timely and accurate communication.

Transportation to local practicum experiences is the responsibility of the student. Many local clinical experiences are available within five miles of campus; however, some may require traveling up to 35 miles. If a student does not have a personal vehicle, we recommend being prepared to carpool with other students, use public transportation, arrange for a taxi, or rent a vehicle for specific practicum experiences. Faculty will not make clinical assignments based on carpool requests or geographic location of student residence.

A hallmark of the nursing program is a capstone, cross-cultural course taken in the final semester of the senior year. The student is required to participate in a month-long nursing and ministry immersion experience that requires effectiveness in a cultural setting different than
Registered Nurse Licensure in the State of Washington

After successful completion of the Nursing Program at Northwest University, students are awarded a Bachelor of Science (BS) degree with a major in Nursing. Entry into professional nursing practice occurs after successfully passing the RN licensure examination.

This program includes an appropriate pre-testing program, to prepare the nursing graduate to take the Registered Nurse licensure examination in the State of Washington. A one-time, non-refundable testing package fee is charged for pre-testing sessions and covers the official grading, access to results, and a set of content-specific test review modules. The Dean and faculty advisors assess the composite results of all official pre-tests (or practice tests) to identify areas for further review and study. Throughout the nursing program, students are expected to work closely with their Dean and faculty advisors to prepare to pass the RN licensure examination with high scores. Such preparation includes taking advantage of computerized pre-tests, content review modules, and study group sessions.

Students are advised to take the Registered Nurse (RN) licensure exam in the State of Washington. The graduate may, if desired, apply for RN licensure by endorsement from any other U.S. state following initial licensure in Washington State. The Dean provides a signature authorization for Northwest University that each student has officially completed the professional Nursing Program and is eligible to apply for Registered Nurse testing and licensure. The nursing graduate is responsible for final preparation and mailing of the application for testing and RN licensure, transcript requests, all RN testing and application fees, results, and license maintenance.

Students seeking admission to the Nursing Program must be aware that the State of Washington or any other State may withhold the Registered Nurse license application if the applicant has a record of criminal conviction or committing a serious crime. Students should discuss this matter with the Dean before making final application to the Nursing Program since application materials include a National Criminal History form. Any criminal incidencces occurring during the nursing courses must be reviewed immediately with the Dean, and may cause immediate dismissal from the Nursing Program and/or jeopardize the application for Registered Nurse licensure.

Students may choose one of the several majors leading to the four-year Bachelor of Arts degree. Students who desire a biblical/theological basis for pursuing other educational or vocational interests may complete the one-year program leading to the Certificate in Christian Studies. The specific objectives of the majors or other programs are listed with their descriptions in the following pages. In addition to the programs offered, the College of Ministry provides biblical and religious studies for all students of the University.

The Bachelor of Arts programs within the College of Ministry are designed to prepare graduates intellectually, spiritually, and functionally for Christian ministry. Graduates of the College of Ministry should be able to:

- do biblical exegesis and theological research;
- critically examine and assess the impact of societal and world issues on Christian ministry; and
- effectively communicate the Christian faith both in the Church and in the world.

The College of Ministry desires that all its graduates be persons who demonstrate a continuing interest in lifelong learning, and in the ability to apply truth to life; approach their own spiritual lives contemplatively and reflectively; and express a genuine connection to and a caring for the world.

**Biblical Studies Core**

The University Educational Goals state, “Northwest seeks to cultivate Christian character in its students.” Building upon the Core Curriculum requirements, the Biblical Studies Core enables the student to form a foundation for faith and practice. Study of the Scriptures and theology should encourage the student toward comprehension of the revealed nature of God, growth in biblical knowledge, an understanding of Assemblies of God doctrinal positions, and development in spiritual maturity. The following courses constitute the Biblical Studies Core utilized by many of the College of Ministry majors.

- BIBL 2113 Pentateuch........................................3
- BIBL 2213 Jesus and the Synoptic Gospels...........3
- BIBL xxx3 Bible Electives .........................9
  (6 credits must be from 3000/4000 level)
- THEO 2503 Pentecostal Spirituality ..................3
- THEO 3213 Systematic Theology I ...................3
- THEO 3223 Systematic Theology II ...................3
- THEO 3413 Theology of Ministerial Essentials......3

**Second Major in Biblical Studies**

The 39 credits of Biblical Studies (12 credits of Core Curriculum Biblical Studies plus 27 credits of Biblical Studies Core) may be considered a second major by students who are taking majors other than Biblical Literature or Religion and Philosophy. Those students who so choose have the option of declaring on their transcript a major in Biblical Studies as well as their primary major.

**Admission to College of Ministry**

All students declaring a major within the College of Ministry are part of the College of Ministry. However, before their junior year they must make formal application for admission to the College. This is due in part to the fact that Northwest University contributes to the continuing strength of the Assemblies of God and other denominational or parachurch agencies by sharing in the development of competent ministers. As the future effectiveness of the Church in fulfilling its mission depends in part on competency, Christian character, scholarship, and spiritual maturity, the College of
Ministry expects of its graduates significant progress in these important areas.

In order to evaluate and encourage that progress, the College of Ministry affirms the necessity of each student fulfilling the requirements for formal admission to the College. Such admission is a prerequisite to all ministry practices and internships.

Although a student may declare a major at any time during his or her academic program at Northwest, graduation with a baccalaureate degree in the College of Ministry requires that the admissions process be completed and good standing be maintained. No practicum or internship carried out before formal admission may count toward fulfilling graduation requirements. Additionally, once admitted to the College of Ministry, no coursework will be accepted from other institutions to satisfy major requirements without written pre-approval by the student’s advisor and the Dean.

Due to the unique nature of certain programs of study, some exceptions are made to the admissions process. Students whose studies lead to a Certificate of Christian Studies or a Bachelor of Arts in Church and Ministry Leadership are not required to apply for admission to the College of Ministry.

The College of Ministry’s application process is described below.

1. Application: Application packets may be obtained from the College of Ministry office or downloaded from the College of Ministry website.

2. Deadlines: Students may apply for admission during either the fall or spring semester. Application deadlines will be published annually by the College of Ministry office.

4. Screening: The application includes authorization for the College of Ministry to check for criminal history through the Washington State Patrol. Applicants should be aware that the Assemblies of God and/or other ecclesiastical bodies may not grant ministerial credentials to one who has a record of criminal conviction.

5. Essay: Students will write a personal evaluation essay stating why they desire to pursue ministry education. The essay must include 1) a description of the applicant’s personal spiritual development, 2) an explanation of the applicant’s sense of call, 3) an evaluation of developmental and practical skill needs during the major course of study, and 4) a reflection of the applicant's academic readiness in terms of completion and performance in these foundational courses:
   - ENGL 1013 Composition I: Expository Writing
   - ENGL 1023 Composition II: Rhetoric and Research Writing
   - COMM 1213 Fundamentals of Speech Communication
   - BIBL 1103 Old Testament History & Literature

8. References: Reference forms will be provided for three personal references who can speak to the spiritual maturity of the applicant. One reference must be from the student’s senior pastor. A second must be from a non-College of Ministry faculty member. References cannot be from persons directly related to the candidate.

9. Interview: Students will be interviewed by members of the College of Ministry faculty. The interview will involve reflection on the personal evaluation, essay, resume, reference results, and academic records. The aim of this interview is to help students identify gifts and interests and help to clarify their personal sense of call in addition to allowing the faculty to assess the students’ fitness for ministry education at Northwest University.

10. Appeal: Should a student be denied admission, the student may appeal the decision using the appeals process outlined in the student handbook.

11. Reapplication: Students who fail to fulfill these guidelines by the published deadlines may be required to reapply the next semester.

Students interested in any of the programs listed above should contact the Graduate and Professional Studies Enrollment Office.
OFF-CAMPUS STUDY PROGRAMS

Northwest University’s is affiliated with several organizations through which students can spend an extended time – usually a full semester – immersed in concentrated study away from campus. As a member of the Council for Christian Colleges and Universities (CCCU), students are able to participate in the Best Semester student programs. In addition, Northwest has established relationships with other organizations that afford life-changing learning experiences for our students.

Off-Campus Study Program Options

The Council for Christian Colleges and Universities (CCCU) The CCCU is an association of over 110 members in North America and over 70 affiliated institutions in 24 countries which offers many programs to students of its member institutions. The programs offer a unique opportunity for students to make the world their classroom, going beyond the confines of the traditional classroom. These off-campus, interdisciplinary learning opportunities are available to upper-class students. For further information, contact the Provost’s Office or the CCCU Student Programs website: www.bestsemester.com. Specific course descriptions for CCCU programs are listed in the Interdisciplinary Studies (DIS) course description section of this Catalog.

Non-CCCU Study Programs Many students also participate in programs offered by organizations not affiliated with the CCCU. Several of them are listed below. Periodically students request to travel through study abroad programs and desire to have the learning applied to their academic programs. Because the University must verify the level of quality for all student learning experiences, the approval of a new program requires many months and students must inform their academic department and the Provost well in advance of their intended travel semester if they desire the program to be covered by registration at Northwest, and thus included in any financial aid packages.

Africa: GoED. Africa Students spend 16 weeks in Uganda and Rwanda to study the root causes of conflict and the efforts for peacebuilding and reconciliation in the region. Study in both Uganda and Rwanda helps students gain perspective about the complexities of the issues, regional and international responses, and efforts towards building lasting peace. Opportunities to interact with local residents, including victims, enhance understanding of the impact of conflict and the challenges of reconciliation. Although Uganda has had relative political stability since 1986, civil dislocation and ethnic tension continue to present the country with considerable challenges to community reconciliation. Students also examine the 1994 Rwandan genocide, a tragedy that resulted in the killing of nearly one million Tutsi and moderate Hutus in a time span of 100 days.

In both Uganda and Rwanda, classroom discussions, readings, and lectures focus on contextual issues of development, culture and religion, issues of peacebuilding, and post-colonial literature. Excursions to carefully selected sites, field-based practicum placements in relief and development, and homestays with local families complement studies.

American Studies Program (CCCU) The American Studies Program (ASP) is designed to help students connect biblical faith with public life and vocation. Through a semester of experiential learning in Washington, D.C, ASP students can explore their career interests while examining specific public policy issues. It provides regular and direct engagement with expert scholars and practitioners leading in their respective fields. The program provides the internship experience to have the opportunity to be mentored by established Christian professionals in the student’s field of interest. At completion, students are invited to join a community of over 2700 professionals to continue the experience long after the semester is over.

Au Sable Institute Northwest University is a Participating College in the Au Sable Institute, a Christian institute whose mission is to bring healing to the biosphere and the whole of Creation. It does this through academic programs for college and university students, research projects, environmental education for local school children, and information services for churches and the wider world community. Supported by the natural settings of the Great Lakes Forest of northern Michigan, Puget Sound of the Pacific Northwest, Tangier Island in the Chesapeake Bay, as well as in India and Africa, participants take courses, engage in scholarship, gain field experience, confer, and develop practical tools for environmental stewardship in programs that take seriously both science and theology.

Australia Studies Centre (CCCU) At the Australia Studies Centre (ASC), students attend Wesley Institute, a dynamic evangelical Christian community of people from a variety of vocations, locations, churches, languages and cultures. The Institute is located in Drummoyne; a harbourside suburb of Sydney located 10 minutes away from the City Centre, where students live with carefully-selected Australian families. Classes include Australian history and culture and a broad
selection of studies in culture, music, drama, design, and theology. Travel excursions include the Blue Mountains and Jenolan Caves, Gledwood Homestead, and Canberra’s national museum, Parliament House, Australian War Memorial, and other historical sites. 

**Belize: Creation Care Study Program**

Located along the Caribbean coast of Central America, Belize is home to a host of Caribbean and Central American cultures and ethnic groups. It is also home to inspiring ecological diversity, including neotropical rainforests, with their assortment of monkeys, jaguars, and toucan, as well the largest barrier reef in the western hemisphere. Within this context, students are able to examine sustainable development and tropical ecology through a Christian lens of creation care and stewardship by utilizing field studies in Belizean villages, tropical rainforests, mountain streams, and Caribbean atolls. Students also have the opportunity to take part in interest-specific internship and practicum experiences with Belizean organizations seeking regeneration and renewal of the land and communities. Throughout the semester, the schedule also allows for independent exploration of Belize (and neighboring countries), during breaks and free weekends.

**Cascadia: Creation Care Study Program**

Through this program students gain a deeper understanding of God’s loving purposes for the created order and for human society. Drawing on the remarkably rich Pacific Northwest location of Camano Island, Washington, the program helps empower students to develop new skills as social, environmental, and economic entrepreneurs who live and serve God responsibly in this time of rapid change. Students in this program learn about creation care, economic and environmental sustainability, and new possibilities for community for life after graduation. In addition, opportunities for fieldwork among regional Native American tribes provide cross-cultural experience without the expense of travel outside the United States. This rigorous academic semester comprised of studies in social entrepreneurship, environmental issues, and the theology of creation care is enhanced by and integrated with the program’s intentional community living experience.

**China Studies Program (CCCU)**

The China Studies Program enables students to engage this ancient and intriguing country from the inside. While living in and experiencing Chinese civilization firsthand, students participate in seminar courses on the historical, cultural, religious, geographic and economic realities of this strategic and populous nation. In addition to the study of standard Chinese language, students are given opportunities such as assisting Chinese students learning English or helping in an orphanage, allowing for one-on-one interaction. Students choose between completing a broad Chinese Studies concentration or a Business Concentration that includes a three-week, full-time internship. The program introduces students to the diversity of China, including Beijing, Shanghai, Xi’an, Xiamen and Hong Kong. This interdisciplinary, cross-cultural program enables students to deal with this increasingly important part of the world in an informed, Christ centered way. Students earn 16-17 semester hours of credit.

**Contemporary Music Center (CCCU)**

The Contemporary Music Center (CMC) offers students the opportunity to spend a semester studying, living and working in Nashville, TN with faculty, music industry experts and other students who share similar interests in making and marketing contemporary music.

Designed as an artists’ community, the program seeks to develop artists, technicians and music executives with a Christ-centered vision for music content, production and delivery. The mission of the CMC is to prepare students academically and creatively for potential careers in the music. It is an opportunity to live and work in the refining context of community while seeking to understand how God will have them integrate music, faith and business.

**India Studies Program (CCCU)**

The India Studies Program (ISP) is offered in partnership with Bishop Appasamy College of Arts and Sciences located in Coimbatore, India. The Program is structured to provide students with both immersion in a local community and broad exposure to a variety of peoples, places and customs in India including an extensive two-week travel portion of the program to provide students a close up look at India’s diversity. Students participate in two core courses designed to provide a broad overview of the historical, religious, geographical and economic landscape of India. Building on their basic understanding of India’s past and contemporary realities students have opportunities to explore a variety of issues -poverty, social justice, rapid social change, religious pluralism -through the eyes and experience of Indian Christians. Rounding out the semester experience, students also have the opportunity to take courses in their major areas with Indian students and professors.

Core Courses

**Jerusalem University College**

Latin American Studies Program (CCCU)
Students live and learn in Latin America through the Latin American Studies Program, based in San Jose, Costa Rica. The program introduces students to a wide range of experiences through the study of the language, literature, culture, politics, history, economics, ecology and religion of the region. Living with a Costa Rican family, students experience and become a part of the day-to-day lives of Latin Americans. Students also take part in an internship/practicum and travel to nearby Central American nations. Students participate in one of four concentrations: Latin American Studies (offered both fall and spring terms); Advanced Language and Literature (designed for Spanish majors and offered both fall and spring terms); International Business (offered only in fall terms); and Environmental Science (offered only during spring terms). Students in all concentrations earn 16-18 semester credits.

Los Angeles Film Studies Center (CCCU)
The Los Angeles Film Studies Center (LAFSC) exists to introduce students to the work and workings of Hollywood and to prepare them to serve with professional skill and Christian integrity in the film industry. Each semester, students live, learn, and work in L.A.

The curriculum consists of two required seminars, Hollywood Production Workshop and Theology in Hollywood, focusing on the role of film in culture and the relationship of faith to work in this very influential industry. In addition, students choose one elective course from a variety of offerings in film studies. Internships in various segments of the film industry provide students with hands-on experience. The combination of the internship and seminars allows students to explore the film industry within a Christian context and from a liberal arts perspective. Students earn 16 semester hours of credit, 6 from the internship and 10 from seminar study.

See also the Film Studies Concentration.

Middle East Studies Program (CCCU)
The Middle East Studies Program, based in Cairo, Egypt, allows Council students to explore and interact with the complex and strategic world of the modern Middle East. The interdisciplinary seminars give students the opportunity to explore the diverse religious, social, cultural and political traditions of Middle Eastern peoples. Students also study the Arabic language and work as volunteers with various organizations in Cairo. Through travel to Israel, Palestine, Lebanon, Jordan, Syria and Turkey, students are exposed to the diversity and dynamism of the region. At a time of tension and change in the Middle East, MESP encourages and equips students to relate to the Muslim world in an informed, constructive and Christ centered manner. Students earn 16 semester hours of credit.

New Zealand: Creation Care Study Program
From New Zealand’s snowcapped mountains to its topaz coastline, students explore a wonderland of unique ecosystems. Home to about twelve percent (12%) of all the earth’s endangered species and a world leading innovator in conservation and environmental management, New Zealand is an ideal place for studying care of creation. A rigorous academic semester comprised of ecology, theology, environmental literature, and sustainable community development is enhanced by a community living experience from the first day students move into CCSP’s Old Convent campus, to homestays with locals. The schedule also allows for independent travel during a week-long mid-semester break and during free weekends.

Oxford Summer Programme (CCCU)
The Oxford Summer Programme is a program designed for students wishing to gain a more comprehensive understanding of the relationship between Christianity and the development of the British Isles and give more focused attention to topics of particular interest through the seminars which emphasize student learning and research under expert guidance. Seminars (and their attached tutorials) are given on specialized topics under the direction of expert Oxford academics in the areas of history, religious studies, philosophy, English literature, the history of art, and history of science.

Scholar’s Semester in Oxford (CCCU)
The Scholar’s Semester in Oxford is designed for students interested in doing intensive scholarship in this historic seat of learning. Working with academic tutors, students hone their skills and delve into the areas that interest them most. As Visiting Students of Oxford University and members of Wycliffe Hall, students have the privilege to study and learn in one of university's historic halls. SSO students enroll in a Primary and Secondary Tutorial, an Integrative Seminar and the course Christianity and the development of the British Isles and give more. The SSO is designed for students interested in the fields of Classics, English & Literature, Theology & Religious Studies, Philosophy, and History, though all majors may apply. Applicants are generally honors and other very high-achieving students.

Thailand: Bangkok
The greater Bangkok region has some 15 million people and only around 40,000 Protestant Christians. This semester abroad opportunity allows students to participate in the ministry of a local Thai church as they reach out to the urban neighbors, including slum dwellers, while doing academic reflection in the heart of this Asian megacity among Buddhist and Muslim communities. This experience will help you to build filters for understanding your part in God's mission to increase the impact of your cross-cultural ministry in the future.
Thailand: GoED. Mekong

Students spend 16 weeks in the Greater Mekong Subregion in the highlands of northern Thailand to study the root causes of exclusion and exploitation of marginalized people groups. Study in the heart of continental Southeast Asia helps students gain perspective about the complexities of the issues, state and NGO responses, and efforts towards greater empowerment and justice in these communities. Opportunities to interact with local communities, particularly those of the hill tribes, enhance understanding of the relationship between exploitation and its root causes: poverty, discrimination, exclusion and violence. Historically, Chiang Mai was the hub of the La Na kingdom, a dynasty going back to the 1200s. The local peoples are very proud of their northern roots, and the region is home to distinctly different food, music, arts, way of life and even language. Chiang Mai can be thought of as a melting pot of hill tribes and their own unique cultures.

Uganda Studies Program (CCCU)

The Uganda Studies Program provides students with both immersion in a local community and broad exposure to a variety of people and places in Uganda and Rwanda. Students in the Uganda Studies Emphasis (USE) and Social Work Emphasis (SWE) share their lives with university students, living primarily on campus at Uganda Christian University (UCU)-an international affiliate member of the CCCU located 15 miles east of the capital city of Kampala. They also participate in two short home stay experiences. Students in the Intercultural Ministry & Missions Emphasis (IMME) live with host families within walking distance of UCU. Most of the courses offered are taught by UCU professors and many include both UCU and USP students. As a result, USP students have a spectrum of Ugandan relationships that give them a firsthand perspective as they explore issues such as poverty, cultural expressions of Christianity and missions, and as they seek to reconcile the realities of East Africa with their Christian faith. Students also spend time in Rwanda and rural Uganda. In addition to the core experiential course, students will choose from an approved selection of courses from the UCU curriculum to earn 13 to 16 hours of credit.

Washington Journalism Center (CCCU)

The Washington Journalism Center (WJC) is a semester-long study program in Washington, DC, created for students interested in the field of journalism. While in Washington students will take classes focusing on the history and future of the media and how it relates to the public as well as to their personal writing skills. These classes - Foundations for Media Involvement; Reporting in Washington; and Washington, News and Public Discourse - combined with an internship at a top news publication will help students learn to integrate their faith in a journalism career. Students will stay in the Dellenback Center (along with students from the American Studies Program) and will participate in several service learning opportunities within the DC community.

CENTER FOR ENGLISH LANGUAGE EDUCATION (CELE)

Program Director.............Autumn Witt
Programs Supported......English as a Second Language (ESL), International Student Association

The Center for English Language Education (CELE) was established at Northwest University to facilitate the University’s commitment to global exchange through providing academic ESL training for international students and to facilitate cross-cultural understanding and friendship among Northwest University’s diverse student body.

University Service
Serving a university community of scholars and learners, the Center for English Language Education proposes to develop and maintain programs of instruction, research, and professional services which provide opportunities to:

- facilitate language acquisition and cross-cultural communication;
- advise the NU community on issues of cultural diversity and facilitate interpersonal adjustments needed for cross-cultural living and service; and to
- form network relationships with international agencies, schools, and students in order to expedite cross-cultural interactions.

International Partnerships
As a representative of Northwest University, CELE has entered into partner relationships with top universities in Korea: Ewha Womans University, Soongsil University, Gachon (Kyungwon) University, Hansei University, Handong Global University, and Seoul Christian University. CELE continues to seek beneficial international partnerships.

The partnerships include:

- tuition exchange agreements for NU and Korean exchange students for 1-2 semesters of study
- visiting professor exchange opportunities
- research partnerships

English as a Second Language
The ESL program enables international students to develop the necessary skill in academic English for admission into University baccalaureate and graduate degree programs. It also provides opportunity for students who want a semester abroad experience at Northwest University to develop their English skills, and to experience American culture while studying ESL in a Christian academic environment.

Students will:

- become more proficient in reading, writing, and speaking English.
- gain a broader understanding of American culture and make friends with American Christian students and professors.
- develop study skills necessary for success in an American university.

gain academic English skills by auditing undergraduate classes at Northwest University and participating in various programs of the University.

- Enjoy numerous cultural fieldtrips and friendship dinners to enhance their academic experience.
- CELE Graduates are conditionally admitted into Northwest University.

ESL students are enrolled in a full-time program of study that involves twelve credit hours of ESL study: Writing, Speaking, Reading, Listening, Grammar, and Pronunciation & Vocabulary. In addition, students may audit 1-2 undergraduate courses each semester for the standard auditing rate.

The total English preparation will involve 20-26 in-class hours per week.

PRE-PROFESSIONAL PROGRAMS

Pre-Law
As indicated by the official guide to American Bar Association (ABA) approved law schools, there is no single path or degree that must be pursued in order to gain admission to law school and to pursue a career in law. Legal education programs and law school admissions boards welcome and value diversity of experience and education.

While the ABA does not specifically recommend courses of study or undergraduate majors, there are several that, because of the skills they specifically aim to develop, are traditionally regarded as preparing students for law school admissions: History, English, Philosophy, Political Science, and Business. In the current social climate, degrees in fields as diverse as communication, education, nursing, or science are also excellent paths to a legal education.

Every student seeking admission to law school must develop the following set of core skills:

- Analytic and problem solving skills,
- Critical reading ability,
- Written skills,
- Oral communication and listening skills,
- Research skills,
- Task organization and management skills.

In addition, persons pursuing a legal education must develop a strong sense of value relating to the faithful service of others and the promotion of justice. A Northwest University education specifically aims at encouraging both of these values and informing them from a distinctly Christian worldview. Students pursuing legal education are strongly encouraged to participate in educational, extra and co-curricular activities, life experiences that will assist in developing the core skills and attributes necessary for success in the legal profession.

The ABA further defines five areas of basic knowledge that are helpful to a legal education and to developing competent lawyers:

1. A broad understanding of history and the factors that have influenced the development of our society.
2. A fundamental understanding of the American political system and of political thought in general.
3. A basic understanding of mathematics and finance appropriate to the analysis of financial data.
4. An understanding of human behavior and society.
5. An understanding of the nature of culture and cultural diversity.

Courses that may help the student develop these understandings at Northwest University include, but are not limited to:

- Political Science/Legal Studies courses such as: American Government, Judicial Process, Legislative process, American Presidency, Constitutional Law, and Political Philosophy.
- Communication: Advanced Speech, Debating Controversies, Debate team
- Economics: Survey of Economics
- English courses such as: Advanced Expository Writing, Media Writing, Business Writing, Literature courses,
- Foreign languages and cultures
- History: United States History, Diplomatic History
- Philosophy: Logic, Critical Thinking and Writing, Political Philosophy, History of Philosophy
- Mathematics: Pre-calculus (minimum)
- Psychology and Sociology

Objective criteria for admission to law schools

- Law School Admissions Test (LSAT). Scores from this half-day standardized test are used by most law schools as a common measurement of potential for success in law school.
- Undergraduate GPA. Applicants submit undergraduate transcripts to the Law School Data Assembly Service (LSDAS), which converts grades to a cumulative grade point average using a set of consistent values. This data is used by committees in comparing applicants.
- Applicant index. Many law schools ask LSDAS to combine applicants LSAT scores and GPAs with weighted constants to produce a single number which they may use to assess and compare potential for success in completing a law degree.

Students desiring to pursue a legal education are encouraged to contact the College of Arts and Sciences pre-law advisor, and to participate in the pre-law advising cohort.

Pre-Medicine
A medical education provides access to a broad and inclusive profession from clinical practice to medical administration, public health, community health, biomedical research, and medical education.
Students seeking to pursue a career in medicine must build a strong foundation in the sciences and mathematics. Most students preparing to enter medical school major in biology or biochemistry. Other majors are possible, but the student must complete all of the core science courses required by the medical school. In addition, medical schools expect a broad education in the liberal arts. The unifying factor is the student’s ability to demonstrate in-depth scholarly exploration and the development of life-long learning skills that are essential to a career in medicine.

Because medicine is practiced in a social context, medical schools look for applicants with strong communication and interpersonal skills, a deep appreciation of the needs of society, and a set of values such as truthfulness, compassion, altruism, and justice. Northwest University provides students with the opportunity to develop these values through the integration of faith and learning in all of the traditional fields of study in humanities, natural and social sciences, and though the core biblical and theological studies in the Core Curriculum. In addition, Northwest University encourages students to directly apply these understandings and values through a variety of ministry and community outreach opportunities.

Medical schools look for students who demonstrate dedication to duty and altruism through service learning experiences specifically related to the values of healthcare professions. Such experiences will typically include participation in clinical science research, shadowing of a healthcare professional, participating in community healthcare or social agency outreach efforts, or the like. Students should seek out multiple opportunities to engage in experiential learning. Each student in the pre-professional biology track will participate in a cross-cultural service experience as a part of the program requirements.

Because the process for admission entrance to medical school is rigorous and competitive, the admission standards are very high. Letters of recommendation by the Medical School Advisory committee, which are necessary for application to medical schools, are only given for students who in the judgment of the committee meet the standards of strong grades, quality and quantity of service learning experience, and cross-cultural competence. Completing any particular degree does not guarantee recommendation.

Core Science Requirements (Source: Medical School Admission Requirements, 2008-2009, AAMC)

- General Biology (2 semesters)
- Physics (2 semesters)
- General Chemistry (2 semesters)
- Organic Chemistry (2 semesters)

Note: Premedical students intending to apply college credit earned through Advanced Placement (AP) and College Level Examination Placement (CLEP) to meet premedical requirements should be aware that medical schools restrict the use of such credits. Accordingly, Northwest University may require either taking the courses in the science core at Northwest University, or validating any transfer courses through successful completion of upper-level science courses. It is strongly recommended that all science courses be taken at the university level.

Because mathematical competence is foundational to science, and because medicine requires the ability to evaluate medical literature, Calculus and Biostatistics are generally expected.

Other criteria for admission to medical school

- A strong GPA in a rigorous and demanding selection of courses.
- Strong scores in the four sections of the Medical College Admission Test (MCAT).
- Letters of recommendation
- Documentation of service experience

Pre-medicine students will be expected to participate in the pre-med advising cohort and to regularly engage with the pre-medical advisor. Students may get more information by contacting the College of Arts and Sciences secretary in HSC 221 for a Pre-med handbook.

Pre-Dentistry

Students seeking to enter dental school should follow the preparation requirements for medical school admissions. Students are also advised to contact the dental schools to which they may wish to apply for specific pre-admission requirements. In place of the MCAT, dental school admissions require strong scores on the American Dental Association Dental Admission Test. Information on this test can be obtained from the Department of Natural Sciences and Mathematics.

Other Post Graduate Health Professional Programs

Students interested in preparing for other health care professions in areas such as pharmacy, optometry, medical technology, or podiatry, may also do so within the science programs at Northwest University. Because each of these professional areas has its own basic science and core curriculum requirements, a student seeking entrance into a professional school should determine the specific requirements by consulting the catalogs of the school(s) and tailoring the course of study at Northwest University to meet them. Information on some of the health care professions is available from faculty in the Science and Mathematics department.
ADMISSION TO THE PRE-MED ENDORSEMENT

Pre-application to Pre-Med Endorsement
(Freshman year, or upon transferring to Northwest)
1. As soon as you have decided to pursue the pre-med endorsement, meet with your advisor to inform him or her of your intent.
2. After meeting with your advisor, file a declaration form with the Chair of the Natural Science Department.
3. Work with your advisor in planning your academic schedule to complete the science pre-requisites for admission to the endorsement.
4. In meetings with your advisor and the department chair, discuss and plan for service learning opportunities that support admission to medical school. These will need to be evident in your formal application to major.

Steps to formal admission
(End of Sophomore year. Transfer students must do 1-4 and complete one Northwest University science class before applying).
1. Complete all GER sciences (38 credits) with a minimum cumulative GPA of 3.5, and a science GPA of 3.5 before submitting admission to major application. Students who do not meet the GPA may still apply only if other aspects of their application are exceptional.
2. Take the TEAS test and score greater than 80%.
3. Prepare the formal application and submit it to the science department chair.
   a. On the cover page include your name, overall GPA as of the last semester before application, your science GPA, and the TEAS score.
   b. Attach official transcripts documenting all of your previous collegiate academic work.
   c. Submit a, one page maximum, typed statement of personal and professional interest.
   d. Submit two professional reference letters (Northwest University science professors or members of immediate family may not be used for reference letters) speaking to the applicant’s character, leadership activities, and service commitment so that an assessment of the applicant’s potential for success can be made.
   e. Include a well-organized list of medical related volunteering, shadowing, jobs, and other life experiences with brief descriptions of each. Letters from people you worked with may be attached to this page.
4. Once the application is complete and submitted, the applicant will set up an interview with the Pre-Med Committee through the Natural Science Department Chair. After deliberation, the committee will formally notify the applicant of either acceptance or rejection within two weeks of the interview.

Following Acceptance
1. Upon being accepted the student will set up a yearly review with the Pre-Med Committee through the Natural Science Department chair and submit a one page maximum, typed statement of progress in meeting the pre-med requirements.
2. The student will continue to maintain a list of medical related experiences and service.
3. Because of the cross cultural experience component all science majors must:
   a. Secure and maintain a valid passport. (The passport must be valid for the time period covering all expected international travel.)
   b. Authorize the science department to conduct a criminal background check.
   c. Provide a complete health history including immunization and vaccination documentation.
   d. Provide proof of health insurance for the personal cost of health care and maintain insurance through the duration of the program.

Following Rejection
If the candidate is rejected, the formal notification from the pre-med committee will describe the deficiencies leading to the rejection. The student should meet immediately with his or her advisor to plan a course of action leading toward either pursuit of the Biology major (Environmental Science, or General Studies with a science concentration are also suggested), or outlining steps that should be taken in order to remedy the noted deficiencies and prepare for re-application. The student may re-apply after one semester and upon completing the necessary steps.

RESERVE OFFICER TRAINING CORPS

Coordinator .................... Jim Heugel

Programs Supported ..... Aerospace Studies, Military Science, and Leadership

Northwest University has a cooperative arrangement with the University of Washington’s Air Force and Army Reserve Officer Training Corps (AFROTC, AROTC). Through these cooperative programs, Northwest University students prepare for commissioning in the US Air Force or Army by earning a degree from Northwest and concurrently registering for a series of courses at the University of Washington. The aerospace and military science courses at Northwest University are instructed by qualified personnel from the University of Washington and military services. A minor in Military Science and Leadership is also available through this arrangement.

[Note: The information in this catalog is intended to be accurate but not exhaustive. Interested students should contact the respective ROTC center for specific details, processes, obligations, and scholarship restrictions.]

The Reserve Officer’s Training Corps is a program established by Congressional decree to provide the armed forces with a steady supply of educated, capable officers. The ROTC program is designed to prepare students for leadership within the Air Force or Army following the acquisition of a baccalaureate degree. Special military courses are obtained each semester through the University of Washington. Successful completion of these courses and a camp conducted for approximately a month in between the junior and senior years, combined with the earning of a non-ministerial bachelor’s degree qualifies an individual for commissioning.

Scholarships are available for some eligible students. Contact the Financial Aid Services Office for details.

There is no commitment when a student tries ROTC during the freshman and sophomore years. There is, however, a four year commitment to the military when a student begins the junior year of ROTC or accepts a scholarship. Depending on the student’s desires and the needs of the Air Force or Army this may be in the active component or in a reserve or Guard assignment while pursuing a civilian career.

When a student applies for a scholarship there is no obligation incurred until the scholarship is accepted. Students are not required to have a scholarship to participate in either the Air Force or Army ROTC.

Participation in either the Air Force or Army ROTC at the University of Washington requires previous acceptance by the University. No application for the Military Science program itself is required; however, students may be eligible to apply for a scholarship which would pay tuition, books, and a monthly living stipend.

Army ROTC

The University of Washington boasts one of the nation’s oldest Military Science programs. Kinnear Husky Battalion cadets have the opportunity to earn competitive scholarships, attend summer training at Regular Army schools, and attend quarterly training events at Fort Lewis, Washington.

Army ROTC is a chance to develop skills for success like confidence, self-esteem, motivation, and the ability to lead others and make decisions. Army ROTC is a challenging combination of academics and important hands-on instruction that puts students on track for a more productive and rewarding future. ROTC programs on college campuses are the nation’s way of ensuring that all the influences of higher education are transported into the military services, a mandatory requirement in a democracy.

Air Force ROTC

The Air Force Reserve Officer Training Corps (AFROTC) at the University of Washington is an educational program designed to give students an opportunity to become an officer in the United States Air Force while completing a bachelor's degree. Also, the Air Force ROTC program prepares cadets to assume positions of increasing responsibility and importance in the modern Air Force. Air Force ROTC offers two routes to an Air Force commission-the Air Force ROTC Four-Year Program and Two-Year Program.

Students are required to take Air Force Aerospace Studies or Army Military Science courses in addition to their academic program at Northwest University. Courses descriptions are located in this catalog.
NORTHWEST UNIVERSITY

The purpose of the Certificate in Ministry Leadership is to provide the educational requirements for each level of credentialing for ministers in the Assemblies of God: Certified, Licensed, and Ordained.
Salem Bible College is pleased to continue our tradition of Bible-based education and practical training for ministry in partnership with Northwest University.

Now known as Northwest University Salem Campus, our support of the University's mission is multifaceted. Students may attend part time or full time to accomplish their goals.

The faculty at Northwest University Salem Campus is committed to helping students fulfill their dreams, respond to their call, and discover their ministry potential. Professors achieve this through engaging students through creative educational formats in the classroom, while building relationships with them outside of it, giving our school the feeling of a family.

Whether students live on campus or off, they find that discipleship never stops at Northwest University Salem Campus, no matter if they are learning in the classroom, worshiping during chapel, or making friends participating in campus activities. Believing that disciples make disciples, we emphasize the importance of a personal, faith-based commitment to Jesus Christ that is supported by objective truth and can be rationally defended.

Graduates of Northwest University Salem Campus can be found ministering God’s love throughout the world as pastors and missionaries, as well as leading ministries to children, youth, and anyone else in need of the proclamation and application of the Gospel of Jesus Christ in their lives and culture.

BIBLICAL LITERATURE

College .................................. Ministry

Academic Award .......... Bachelor of Arts

Credits Required .......... 125 semester credits

Coordinator ....................... Blaine Charette

The Biblical Literature major has at its center the belief that the Bible is the inspired word of God, the only foundation for our faith and practice. The major is therefore designed to lead the student into the proper understanding and exposition of the Bible. The major seeks to do this by giving the student a broad knowledge of the background, content, and meaning of the Bible, and by helping the student develop exegetical skills for continuing study and communication of the Bible.

This major is designed for those preparing for vocational Christian ministry as well as other vocations, enabling them to proclaim the gospel effectively in the church and in the world. It also provides a good foundation for those who are planning to pursue graduate studies. Students may develop their vocational interests by selection of a minor or electives of their choosing.

In addition to achieving the general goals of the University and of the College of Ministry, completing this major results in the following outcomes:

- demonstrate knowledge of the content and background of the Bible appropriate to the Bachelor’s degree;
- apply appropriate methodologies for Bible study;
- interpret the Bible in accordance with generally accepted hermeneutical principles;
- discriminate between competing interpretations of Scripture; and
- understand and express sound biblical theology.

BIOLOGY

College .......................... Arts and Science

Academic Award ............ Bachelor of Science

Credits Required .......... 125 semester credits

Coordinator ................. Eric Steinkamp

The study of biology strives to understand the natural world we live in, including the human body. A career in biology involves curiosity of how living things work, how they interact with each other and the non-living world and how our actions influence nature and our bodies. Studying biology causes us to ask questions, make observations, describe potential answers, design studies, collect evidence, evaluate data and solve problems. Biologists may use a microscope to study human health and diseases, or a single celled organisms effect on the environment, Biology may also use nets to capture migrating birds and understand their contribution habitats along their migratory routes, or use a greenhouse to grow native plants which will be transplanted in ecosystem recovery efforts.

B.S. Biology Degree Objectives

- The student will be able to apply the scientific method to research problems in the biology field.
- The student will be able to effectively use appropriate technology in the study of biology.
- The student will synthesize classroom knowledge in hands-on field studies.
- The student will be able to use knowledge to score well on standardized tests for their associated field.
- The student will participate in cross cultural experiences.
- The student will develop their scientifically-informed worldview and communicate that through writing;
- To develop scholarly skills for research and writing in scientific fields and empower skills needed to share the fruits of that learning with the wider academic and communities.

Bachelor of Science in Biology in the Pre-professional Track

The pre-professional biology track develops students as scholarly professionals who are dedicated to pursuing advanced studies in the healing professions, and who are qualified for admission to professional schools. Because admission into professional schools is highly competitive and selective, students in this track will be carefully guided toward meeting the standards for admission set by the Association of American Medical Colleges. A student entering this program with a goal of gaining admission to a professional school accepts the personal responsibility to carefully prepare for application by achieving strong grades and pursing service experiences in health sciences. Participation in an advising cohort aimed at developing the whole student as a potential professional enhances the possibility of achieving the goal of admission to a graduate school of the student’s choosing.

Bachelor of Science in Biology in the General Biology Track

The general biology track develops students as scholarly professionals who are dedicated to working in the scientific community, or who are prepared to pursue graduate studies in the sciences. Students who complete this degree track will be well prepared to enter fields of employment appropriate to a B.S. degree. In addition, the student will participate in development oriented cross-cultural scientific experiences that provide a rich understanding of the interplay of science and human well-being, and that give a unique preparation for entering the job market, or for pursuing admission to graduate programs in advanced fields of study.

For Science majors wanting to take a science minor, 75% of the classes required may not overlap with Bachelor of Science major.
The major in Business Administration is an all-purpose general business degree designed to prepare individuals to perform managerial functions in the public and private sectors. Like other majors in the School of Business and Management, students take a series of core courses in the fundamentals of economics, accounting, management, marketing and finance. Students then balance the rest of their major with advanced courses in management, marketing, finance and accounting. The curriculum provides an educational experience for leadership positions in the business and professional world, and in various business ministries within the church-related, service-oriented institutions. The Christian value system and perspective, particularly as it relates to the modern business environment, will be integrated throughout the academic program.

In addition to achieving the general goals of the School of Business and Management, completing this major results in the following outcomes:

- **Core Level Business Knowledge** – Graduates demonstrate knowledge from a variety of business disciplines and apply the knowledge and skills to reach solutions to business needs. Graduates understand and demonstrate general theories, principles, processes and skills in: Accounting, Economics, Finance, Management, and Marketing.

- **Business Administration Major Knowledge and Skills** – Graduates demonstrate knowledge and skills required for effective business careers.

- **Innovation & Critical Thinking** – Graduates identify problems, analyze information, form conclusions and propose innovative solutions within the business context.

- **Leadership & Communication** – Graduates communicate correctly and purposefully in written and oral presentation formats.

CHILDREN AND FAMILY MINISTRIES

College .................................Ministry

Academic Award ............Bachelor of Arts

Credit Requirements ......125 semester credits

Coordinator.........................Joshua Ziefle

The Children and Family Ministries major is designed to prepare students for vocational ministry as a pastor to children in the local church, non-profit organizations and cross-cultural ministry settings. The completion of this major should enable the student to develop and lead a children's ministries program and function as a professional team member.

Children develop and learn differently than adults. This major gives special attention to understanding child development and family relationships as they relate to nurturing Christian faith through the ministry of the local church.

Recognizing that effective ministry to and role modeling for children depends upon competent understanding and skillful use of the scripture, and a life consistently maturing into Christ-likeness, this major requires a strong component of Bible and theology.

In addition to achieving the general goals of the University and the College of Ministry, completing this major results in the following outcomes:

- Equip families for a home-based, church supported ministry to their children.
- Define the role of ministry to children and families in the larger context of the three-fold mission of ministry to God, ministry to believers and ministry to the world.
- Articulate a theological framework for doing children’s ministry that consists of three components: theological foundations, personal implications and ministry applications.
- Develop strategies and skills in reaching out to the un-churched and assimilating them into the church family.
- Evaluate one’s ministry, being committed to ongoing improvement to more effectively minister to children and families in today’s cultural context.
- Develop a strategy to fulfill the biblical mandate of ministry leaders to “prepare God’s people for works of service” (Ephesians 4:12).
- Demonstrate the ability to design, implement and lead a culturally relevant children’s ministry program.

- Integrate biblical and theological knowledge with the practice of ministry and daily life
- Demonstrate biblical literacy and exegetical skills
- Effectively communicate the gospel
- Enter vocational ministry
- Live out a biblical worldview in a non-ministerial vocation
- Develop skills for life-long learning

COMMUNICATION

College ................................ Arts & Sciences
Academic Award ............... Bachelor of Arts
Credits Required ............ 125 semester credits
Coordinator ..................... Kara Heinrichs
Concentrations ............... Drama, Film Studies, Media Studies, Organizational Communication, Public Affairs

We live in a communication-oriented society. Our world is significantly influenced by both the personal and mediated communication of individuals from diverse social, political, professional and religious groups. Never before has there been such a demand for leaders and professionals with advanced communication skills and knowledge.

Northwest University Communication Studies Major Overview

Competence in communication is fundamental to success in many professions such as human resources and public relations, organizational management, sales, conflict resolution and negotiation, government and politics, law, teaching and the entertainment industry.

The major in Communication provides the student with the knowledge and skills needed to fulfill his or her calling to serve Christ in communication related professions. The major is designed for aspiring servant leaders who seek to integrate their faith with their communication skills, creative abilities and appreciation of the arts.

But, apart from the practical value of communication studies for future employment, the major also helps students improve their personal quality of life. Becoming an effective communicator is a process that touches every area of our lives -- both at home and at work and helps to unlock all other learning.

The program offers many advantages, including the freedom to tailor choice of courses to meet student’s personal or career interests. After completing the core courses, students choose among one of five concentrations for focused study: Organizational Communication, Drama, Media Studies, Public Affairs or Film Studies.

Core Competencies and Objectives

In the Communication Studies Program students develop:

- **Writing and Speaking Skills.** Students develop the ability to use language effectively, to speak well, and to express ideas clearly and with ease to large and small audiences.

Competence in Communication with a Concentration in Drama helps prepare students not only for graduate school, law school, or seminary, but also for a variety of career areas including the performing arts, education, and the ministry.

In addition to achieving the goals of the University, completing the Communication major with a Concentration in Drama enables students to:

The concentration depends on admittance to the L.A. Film Studies Center -- usually limited to one or two students each year. Students spend a semester in Hollywood for internships and course work. Other courses at Northwest University familiarize students with essential communication theories in addition to film analysis.

According to the LAFSC program description: "Students who choose to attend the LAFSC are exposed to a true behind-the-scenes look at the work and workings of Hollywood, yet at the same time are a part of a Christian-based educational program committed to understanding what it means to be salt and light in this unique and powerful industry. The entire experience of classes, internships, and Christian fellowship provides the student with an opportunity to test his or her interest in pursuing a career in the mainstream entertainment industry."

The LAFSC is sponsored by the Council for Christian Colleges & Universities and is located in one of the primary film and television production centers in Los Angeles. Adjacent to Burbank, the LAFSC is within a few miles of Warner Brothers, Universal, NBC, and The Walt Disney Studios.

Students pursuing this major and concentration achieve a broad-based liberal arts education, with emphases in Communication studies, and so learn invaluable personal and social skills - from self-discipline and confidence in public communication to risk-taking and group endeavor.

Besides gaining a deeper understanding of the significance of film in our culture, the major helps
students develop practical communication skills and improve their chances for success in graduate school, law school, or seminary, as well as a variety of communication related careers -- including the movie industry, performing arts, education and the ministry.

In addition to achieving the goals of the University, completing the Communication major with a Concentration in Film Studies enables students to:

- Apply theories of film criticism to films studied;
- Articulate major developments of film history;
- Gain an understanding of the filmmaking process and the relationship between faith, film, and popular culture.
- Present professional quality media stories for possible publication or broadcast purposes.
- Obtain real-world experience by working with the university newspaper or radio station.

**Organizational Communication Concentration**

Students who major in Communication with a Concentration in Organizational Communication focus on the knowledge and skills necessary to direct, represent, promote or serve in organizations. Drawing on the fields of business and psychology in addition to public address, the Concentration provides an understanding in how humans interact and function in organizations.

Knowledge of the theories and practices of organizational management, leadership and promotion permits students to appreciate the complex processes of human relations in organizations through the framework of Christian faith and values. The Communication major with a Concentration in Organizational Communication helps prepare students not only for graduate studies, law school, or seminary, but also for a variety of public information related careers.

Course work includes a practicum in which students serve as interns or assistants to organizational professionals working with pregnancy help, hospice centers, domestic abuse organizations, public interest, para-church, missions support, youth and other community organizations as well as political parties, campaigns or political actions organizations.

Students pursuing this major gain a broad-based liberal arts education and acquire valuable personal and leadership skills - from self-discipline and confidence in public communication to decision making and conflict resolution and problem solving.

The Concentration provides the ability to:

- Learn supportive skills that foster cooperation and teamwork in work groups.
- Make decisions and resolve problems in organizations;
- Generate and organize creative ideas and supporting material for organizational presentations and literature;
- Present public presentations and speeches before live and mediated audiences

All courses are designed to guide students to think about media from the perspective of the Christian world view and to consider how media is used to fulfill the great commission.

The Communication major with a Concentration in Media Studies helps prepare students not only for graduate programs in journalism or broadcast, but also for a variety of entry level careers with newspapers, magazines and radio and television stations. Course work includes work with the college newspaper as well as an internship in which students gain practical experience with area newspapers, radio and television studios.

of leaders and professionals who understand how reasoned discourse and persuasion promote solutions to problems. Public affairs takes on the mantle of rhetoric studies. Traditionally rhetoric was a core curriculum for the Academy seeking to educate an engaged citizenry. Rhetoric is defined as the creation and maintenance of human understanding in order to foster cooperation among members of society. Students gain insights from the perspectives of political science and communication studies and develop practical skills, which empower them to make a difference in the world.

ELEMENTARY EDUCATION

School............................Education

Academic Award ............Bachelor of Arts

Credits Required ............125 semester credits

Coordinator....................Ron Jacobson

The major in Elementary Education prepares students to become professional teachers for both public and private schools from kindergarten through the 8th grade. Aspiring teachers study the liberal arts, Bible and theology, educational foundations, psychology, assessment, learning theory and pedagogy, and instructional methods for the varied subjects required for elementary teaching: reading, mathematics, visual arts, drama, language arts, science, health and fitness, social studies, and music. During two semesters, students demonstrate their teaching skills in public or private school classrooms, leading to formal certification by the State of Washington.

Teaching Certificate Endorsements and Academic Subject Area

Elementary education majors earn the endorsement for kindergarten through 8th grade and a middle level endorsement in Humanities, Mathematics, or Science. They may teach any self-contained classroom within that grade span or their subject specialty within 4th through 9th grades.

Professional Standards and Performance Assessment

Within the context of educational restructuring and accountability for learning results, the performance of each candidate is evaluated in multiple ways over time. Assessment of candidate performance focuses on demonstrated competency in both knowledge and teaching skill, which employs varied strategies to measure professional knowledge, subject matter mastery, and teaching effectiveness. Measures include written examination, oral communication, classroom management, curricular and instructional design, practice teaching, projects and portfolios, written expression, visual and musical arts, and the success of children in field settings.

COLLEGE OF ADULT & PROFESSIONAL STUDIES

ELEMENTARY EDUCATION

School............................Education

Academic Award ............Bachelor of Arts

Credits Required ..........125 semester credits

Coordinator.....................Elisabeth Kraus

The major in Elementary Education and the Humanities is designed to equip students with all the necessary competencies to pass the state certification tests, enter the MIT and receive endorsements in Elementary education and/or Middle School Humanities.

Teaching Certificate Endorsements and Academic Subject Area

The major in Elementary Education and the Humanities, presented through the College of Adult and Professional Studies program, prepares adult students in the subjects needed to teach children from kindergarten through eighth grade within self-contained classrooms and to teach middle school students enrolled in social studies and English courses.

Aspiring teachers study the liberal arts, biblical literature and theology, and educational foundations: the history and philosophy of common schools in America, technology, psychology, assessment, diversity, and school culture.

Professional Standards and Performance Assessment

Graduates will be prepared for employment as paraprofessional, non-licensed educators and/or for continuing professional studies at the master’s degree level leading to the Washington State Residency Teacher Certificate, endorsed for Elementary Education (K-8 generalist) and Middle Level Education (grades 4-9) in the humanities: social studies and English, provided they satisfy post-graduate admissions standards.

Graduates, who desire to complete requirements for teacher certification by continuing their preparation through the Master in Teaching (MIT) degree program, will demonstrate subject-matter knowledge by passing the Washington Educator Skills Test-Basic (WEST-B) for reading, writing, and mathematics and by passing the Washington Educator Skills Test-Endorsement (WEST-E) in K-8 science, mathematics, and health; K-8 language arts, social studies, and the arts; and grades 4-9 humanities.

College ............................ Arts and Sciences
Academic Award .......... Bachelor of Arts
Credits Required .......... 125 semester credits
Coordinator.............. Martha Diede
Concentrations.......... Literature, Teaching English to Speakers of Other
Languages, Writing

Students major in English to read a wealth of literature and to develop competence in specific analytical and communicative skills. These skills include integrative thinking, critical and creative writing, usage of college English in both oral and written form, discernment in reading, appreciation of the human experience as illustrated in literature, and confidence in public speaking. Competence in these skills helps our students succeed in career areas such as ministry, education, business, government, publishing, and creative writing.

In addition to achieving the goals of the University, completing the English major enables students to:

1. Integrate literature and the Christian faith;
2. Produce strong, college English in prose and research writing;
3. Explore in practice the genres of prose, poetry, fiction and drama in American, English, World, and/or multicultural literature;
4. Apply critical thinking skills in writing, public speaking, and interdisciplinary studies; and
5. Use appropriate methodology in the analysis and interpretation of prose, poetry, fiction, drama, and film.

The English Major Core Requirements consist of 30 credits in specific writing and literature classes. English majors must also complete a 15 credit Concentration in Writing, Literature, or TESOL. To strengthen their humanities backgrounds, English majors are encouraged to take their 22 credits of electives in such related disciplines as history, philosophy, and the arts.

Entry to Major
Students need formal admission to the English major in order to progress through their academic programs. To be considered for admission, a student must have fulfilled the following criteria:
1. Completed the freshman year;
2. Completed a minimum of two English classes at Northwest University;
3. Achieved a minimum overall grade point average of 2.500.
4. Written a satisfactory Entry Paper (See Dept. Chair for details); and,
5. Been interviewed successfully by a sub-committee of three or more members of English Dept. (This final criterion may be waived at discretion of Dept. Chair)

Graduation Requirements
In addition to the requirements listed under Academic Support – Graduation, English Majors must have achieved a minimum cumulative grade point average of 3.000 in English classes taken at Northwest University. Students also must have successfully completed, typically during the second semester of their junior year, an Online Baccalaureate Exam (OBE). The OBE is based on the Departmental Reading list, available online and from the English Department Chair. Each English major requests a Committee of three English professors who then use the OBE to evaluate the student’s ability to integrate literature and the Christian faith, to use critical thinking skills effectively, and to apply appropriate methodology in the analysis and interpretation of literature. Students who do not pass the OBE may retake it in a succeeding semester. Students who do not pass the OBE on their second attempt cannot graduate with an English major.

ENVIRONMENTAL SCIENCE

College .........................Arts and Sciences

Academic Award ..........Bachelor of Science

Credits Required ..........125 semester credits

Coordinator...............Eric Steinkamp

The major in environmental science is designed for individuals who intend to scientifically study, develop, and implement tools for building a better world. Studies include remediation for environmental problems of our modern and developing world and technologies that provide high production of vegetable, fruit, and animal matter for the purpose of providing human nutritional essentials in an ecologically sustainable manner. These activities will be based on a biblical understanding that stewardship of the earth and the poor is the best basis for caring for the environment. The environment is best studied in the field with hands-on courses often held at different ecological sites.

Purpose and Philosophy
Stewardship, knowledge and servant hood are essential to the Northwest University Environmental Science major. We firmly believe the Earth and all its creatures embody the majesty of God’s ingenious powers. We believe that humanity, by God’s ordaining power, is placed here to serve as stewards. Stewardship includes living sustainably and caring for our neighbors at home and abroad. The scientific laws and principles that govern this natural world represent God’s continued and sustaining presence and therefore these laws can and should be discovered and understood by students and faculty. This knowledge enhances human understanding of the Creator and provides us with the tools to carry out our stewardship responsibilities. We strive to provide a unique approach to a major in Environmental Science through the integration of science and theology. The interplay between scientific experiment and theory is balanced with growth in understanding and human imagination. We emphasize the joining of faculty and students in studying the wonders of nature in order to develop an inquisitive mind combined with rigorous reasoning and hands-on field experiences. Stewardship and servant hood displace materialism and human power as the primary goals of graduates committed to making our world environmentally sustainable.

Curriculum Overview
The curriculum foundation provides a broad exposure to knowledge and experience in the ecological sciences. The elective component allows individual students and their advisors to target the specific applicational focus. Completing this major result in the following outcomes which enable the student to understand and apply objectives of this major, specifically to:

• Apply the scientific method to research problems in the environmental sciences;
• Effectively use appropriate technology in the study of environmental sciences;
• show understanding of ecological systems as a basis for proposing stewardship principles for sustainable operation of those systems;
• demonstrate development and application of environmental remedies that improve environmental conditions;
• show adaptability of classroom theory to field understanding and application by participation in off campus class opportunities;
• be able to identify, develop, and share with others skills which facilitate the dissemination of professional environmental information.

Course Sequence
The sequential nature of many of the required science courses mandates that students pay close attention to course numbering and course prerequisites, and be in conference with a science department advisor. Chemistry, mathematics and the General Education requirements are foundational and often prerequisite or corequisite to other courses. Additionally, some of the courses are offered in alternating years. The student is strongly encouraged to confer with the science advisor in the choice of elective courses that can strengthen the educational experience. All these factors emphasize the importance of close student-science advisor communication for successful completion of this major.

GENERAL MINISTRIES

College ............................... Ministry

Academic Award .......... Bachelor of Arts

Credits Required .......... 125 semester credits

Coordinator ................. Wayde Goodall

The major in General Ministries is designed for individuals whose ministry intention is in areas not covered by the more traditional fields of ministry preparation. It provides a more flexible degree plan through which to serve them.

The General Ministries degree allows a great degree of latitude in choosing courses that are suited to the student’s particular ministry areas of interest, past experiences, future goals, and present abilities. Despite its appearance, the General Ministries major has very specific goals; these goals are merely defined on an individual basis.

The major utilizes a section of the major for supporting ministry courses. With the approval of the advisor, this section allows commonly recognized ministry courses as well as topics chosen from other disciplines that can support ministries, such as courses in business, computer technology, drama, etc.

Each student is assigned an academic advisor who works with the student to determine the courses that best fulfill present and future ministry goals. Together, they develop a long-term plan which provides strength in chosen disciplines while also providing balance through well-rounded course selection.

GENERAL STUDIES (BA)

Academic Award ...........Bachelor of Arts
Credits Required ..........125 semester credits
Coordinator .................Jim Heugel

The BA in General Studies is an individually designed major option for students who wish to create a program of study by combining selected courses from two or more majors. Students are required to identify a central organizing theme of their General Studies Major and design it under the guidance and supervision of a General Studies Advisor (Provost or designate). A minimum of 20 of the major credits must be upper division courses. Students meet all General Education Requirements. Courses cannot double count within the Major and as General Education Requirements.

Process to design a General Studies Major

- Students identify the unifying theme of their program and present their concept at a meeting with the General Studies Chair (the Provost or designate).
- In conference with an Advisor appointed by the General Studies Chair, students make a list of the courses they have completed or plan to take that will apply toward their academic goals. This list must comprise a minimum of 45 semester credits, all of which are related to the areas of concentration.
- The courses in the Primary Concentration (24 credits) are to be selected from one academic discipline offered at NU. The courses in the Secondary Concentration may come from any number of areas as long as interrelationships are discernible.
- A minimum of 20 credits between the two concentrations must be upper division (3000- and 4000-level) courses.
- Students draft a statement that describes the proposed major theme and discusses the interrelationships among the courses that were chosen.
- This proposal is submitted to the General Studies Chair for approval. The contract must be approved at least 30 credits prior to graduation.

HISTORY

College............................Arts and Sciences

Academic Award .............Bachelor of Arts

Credits Required ..........125 semester credits

Coordinator...............Darrell Hobson

The major in History is designed to provide students with a broad understanding of and familiarity with the cultural, social, intellectual, political, economic and religious development of world civilizations. This foundation will enhance the student’s ability to understand and evaluate the historical origins of contemporary society and culture. The History major will provide a well-informed foundation for the pre-professional and future graduate student alike. The elective component in conjunction with personal advising allows students to target their specific future and intellectual goals.

In addition to achieving the general goals of the University and the College of Arts and Sciences, completing this major results in the following outcomes:

- Gain an appreciation for intelligent engagements with past events and cultivate the ability to understand their pertinence to today’s social, political, religious, and cultural concerns.
- Develop an understanding of the implications of Christian thought and practice on history and historical thought.
- Compare and critique a multiplicity of historical epochs, social and political events, and cultural and religious world-views.
- Gain understanding of and appreciation for the historical development of ideas and cultivate the ability to relate that understanding to the current exploration of ideas.
- Enhance the student’s ability to read, research, reflect upon, analyze, critique, evaluate, and present orally and in writing information and material of an historical nature.

The attainment of these objectives will be measured by written exams as well as by oral and written assignments.

Course Sequence

Courses to be taken in the freshman and sophomore years are the same as the General Education requirements for all majors at Northwest University.

The course sequence for the junior and senior years will depend upon the student’s interests. The student and his/her advisor will work together to design a sequence of study that fulfills the requirements of the major.

Course Selection

Students take a series of courses that provide the core of their program. This ensures that a broad foundation exists upon which to build further, more in-depth study. More specific, advanced courses are offered covering a variety of historical and related subjects from which students choose, depending on their particular interests and career plans. HISTORY – MINOR

College .........................Arts and Sciences

History is a desirable foundation for various courses of study in college as well as for life. Persons with a greater understanding of history have a larger perspective from which to view events of their own times. A History minor consists of 16 semester hours in history, excluding the three-credit General Education Requirement and any major requirements. At least six hours must be upper division level and must include course work from both history and church history.

INTERCULTURAL STUDIES

College..........................Ministry

Academic Award ............Bachelor of Arts

Credits Required ..........125 semester credits

Coordinator.................David Thomas

The Intercultural Studies major prepares students to effectively live, interact, and communicate the Gospel of Christ in a multicultural environment. The program has three cores of emphasis: biblical and theological, intercultural skills and knowledge, and a regional or ministry concentration. Those with a specific interest in an overseas intercultural setting can choose from the following: Africa, China, Middle East, Latin America, Food for the Hungry (GoED Program), or Linguistics as their area of concentration. Students who wish to follow a traditional broad-based missions track for overseas missions without a specific regional focus will be well-served by the Cross-Cultural Ministry (Missions) concentration. Students wishing to prepare for intercultural ministry in the United States can choose from University Ministry, Urban Ministry, or First Nations Ministry concentrations. The Intercultural Studies major integrates classroom learning and theory with field experience. Students spend an extended period of time in the region or ministry context of their concentration learning language, studying the culture, art, government, history, and economics of the area as well as learning to communicate the Gospel in a diverse cultural setting.

Graduates of the Intercultural Studies Major will be able to:

- Participate cross-culturally in Missio Dei (Mission of God)
- Acquire global awareness, intercultural competence, and cross-cultural skills necessary to communicate Christ effectively in diverse cultural settings
- Effectively live, work, and minister cross-culturally as teachers, health care, humanitarian, and missions professionals both in the US and abroad
- Engage in vocational, humanitarian, and non-traditional cross-cultural contexts
- Promote effective missional perspectives including indigenous leadership development, cultural sensitivity, and acculturation that further expands and contextualizes the Kingdom of God in local settings
- Observe and participate with an organization (missions, humanitarian, or business) to understand their relationship with their support base, colleagues, ethnic leadership, and member care

Check the following web sites for information on the international experience concentrations: CCCU – see www.bestsemester.com for details on location and classes; Linguistic Studies – see http://summer.canil.ca for program details; and “Food for the Hungry” (Go ED Programs) – see www.go-ed.org for details on location and classes.

Concentrations...............Single Area, Multiple Area, Legal Studies, Political Science

The Interdisciplinary Studies major provides students with the opportunity to explore a broad range of knowledge from a biblical worldview. Areas of study include foreign languages, English (including TESOL studies) and literature, communication, history and political science, philosophy, and religion.

In addition to achieving the general goals of the University, completing this major results in learning outcomes which enable the students to do the following through the completion of oral and written assignments and examinations:

- demonstrate proficiency in communication skills;
- demonstrate the ability to reason and think critically;
- learn to integrate and apply biblical principles in analysis of culture and society.

The Interdisciplinary Studies core consists of 45 credits in the breadth of disciplines of the liberal arts. Students must select one concentration in pursuing this degree. At least 20 credits must be from upper division classes in any of these concentrations. Courses taken within the major cannot duplicate courses taken in the Core Curriculum requirements.

Course Sequence
Students should plan to complete the Core Curriculum during the Freshman and Sophomore year.

The course sequence for the junior and senior years will depend upon the student’s interests. The student and his/her advisor will work together to design a sequence of study that fulfills the requirements of the Interdisciplinary Studies major. Students are advised to use their electives to strengthen their interdisciplinary studies.

Interdisciplinary Studies Core
The Interdisciplinary Studies core provides an opportunity for students to obtain a broad-based exposure to significant aspects of liberal studies. These include focused studies in communication, writing, philosophy, political science, and religion. A course in a foreign language also is required.

Interdisciplinary Studies Concentrations

Single-Area Concentration
The Single-Area Concentration allows students to conduct extended investigation in one of the following subject areas:

- Communication,
- History,
- Legal Studies,
- Political Science,
- English, Literature,
- Foreign Language, Teaching English as a Second Language, or

- Communication,
- English, Literature,
- History,
- Language, or Teaching English as a Second Language
- Legal Studies and Political Science,
- Philosophy, or
- Religion

Political Science Concentration

Coordinator.........................Millicent Thomas

The major in mathematics emphasizes the understanding of mathematical reasoning and process as foundational for the ability to do calculations. The basic theories and principles of mathematics are treated along with their applications to multiple situations. Mathematical understanding and rigorous calculation prepare students for graduate work and for careers in science, business, social sciences, teaching at the secondary level, and other careers that require applied mathematics.

Objectives

- Understanding of the fundamental rationale of mathematic processes.
- Familiarity with a general history of the development of mathematics.
- Demonstration of ability to do calculations appropriate to situations at the levels of course requirements.
- Demonstration of ability to apply appropriate mathematical analysis to different situations.

Entrance to the Major

There are no formal entrance requirements to the Mathematics Major. The sequential nature of the requirements dictate that a student interested in the Mathematics Major or the Education Math Endorsement should be started the first semester. Working with a mathematics advisor is necessary for timely progression. Interested students will meet standard math entrance requirements for the courses they want to take as specified in the course descriptions and by the math placement policies of the University.

MINISTRY LEADERSHIP

College ...................................... Ministry

Academic Award .................. Certificate

Credits Required ............ 36 semester credits

Coordinator ....................... Ben Thomas

The Certificate in Ministry Leadership is designed to prepare students for volunteer or vocational ministry within churches and para-church organizations. Courses in Biblical Studies, Theology, and Practical Ministry ensure students have the necessary knowledge and skills to lead a broad range of ministries. Completion of the Certificate in Ministry Leadership meets the educational requirements for certification, licensing, and ordination credential levels with the Assemblies of God. Satisfaction for other credentialing groups should be verified by students prior to registration.

The College of Ministry is dedicated to assisting students in the development of “heart, soul, mind and strength,” in the service of ministry. The Certificate of Ministry Leadership is designed to address the challenge of furthering education in today’s fast paced, ever changing world. Students completing this certificate should be able to:

- demonstrate biblical literacy and exegetical skills;
- present a carefully reasoned, coherent Christian worldview;
- effectively communicate the gospel;
- exhibit habits of lifelong learning, self-reflection, critical thinking, sensitivity toward diversity, and personal prayer; and
- comprehend and apply effective leadership, organizational and interpersonal skills.

The Certificate in Ministry Leadership is offered by the College of Ministry through the Office of Extended Education.

Courses are offered through the Office of Extended Education via classroom and online instruction. On campus classroom-based courses are sequentially offered in a one course at a time, one evening a week (and an occasional Saturday) arrangement. Online courses also are available in a cohort-based approach within a two-year timeframe. Both delivery methods utilize non-traditional, six-month long semesters which run from April to October and October to April.

These programs provide the opportunity for working adults who cannot currently attend the on-campus day program to pursue their preparation for vocational ministry.

Our courses are taught by academically and experientially qualified full-time faculty or specifically chosen adjunct faculty – all of whom possess years of real-life experience in their teaching fields.

Theology and practice meet in the Certificate of Ministry Leadership program. This certificate is offered in a Bible-centered, Holy Spirit empowered, innovative, cutting-edge environment.

For further information about entering the Certificate in Ministry Leadership program, contact the Graduate and Professional Studies Enrollment Office for an information packet and further details.

PSYCHOLOGY

College ....................... Social and Behavioral Sciences
Academic Award .......... Bachelor of Arts
Credits Required ........ 125 semester credits
Coordinator ............... Sarah Drivdahl

The Psychology major enhances our understanding of the human condition in light of a distinctive Christian worldview. Our theoretical framework synthesizes broad-based knowledge drawn from the fields of psychology, anthropology, sociology, and cultural studies to provide the student with a sound social sciences foundation. Students are challenged and equipped to become change agents, accepting the responsibility to truly make a difference in the lives of hurting individuals within a global context.

The Psychology major is designed to prepare individuals planning to enter any number of post-baccalaureate occupations, including work in human service or cross-cultural settings by preparing program graduates to:

- demonstrate competency in academic content areas that meet prerequisites for graduate work in psychology, social work, counseling, and international community care;
- demonstrate the ability to effectively communicate their understanding of psychological issues in both oral and written formats including mastery of APA style;
- think critically concerning issues relating to psychology, culture, and social injustice within the context of a globalized world;
- examine Christian faith integration and psychology

Entrance to the Psychology Major

Entrance to major has several critical objectives:

- the formal process assists students in clarifying educational and professional goals;
- students are better able to organize their course schedule; and
- students learn to identify their academic and vocational strengths and weaknesses.

Freshmen, sophomore, and transfer students who desire to major in psychology formally apply to the Psychology Department for entrance to major during their sophomore year.

Entrance Steps

1. Obtain an Entrance into the Psychology Major packet, available in the Psychology Department main office or online at the College of Social and Behavioral Sciences web site.
2. Fill out the Completion of Class Requirements form in the Entrance packet.
3. Submit the above forms to the Administrative Assistant of the Psychology Department.
4. The Administrative Assistant of the Psychology Department will then contact you to schedule an entrance meeting with at least two departmental professors.
5. Schedule and attend an interview appointment with the Psychology Department.
6. The student must complete the above Entrance Steps prior to his or her junior year of study or during the junior year of study for students who transfer into Northwest University with junior standing.

The Psychology major enhances our understanding of the human condition in light of a distinctive Christian worldview. Our theoretical framework synthesizes broad-based knowledge drawn from the fields of psychology, anthropology, sociology, and cultural studies to provide the student with a sound social sciences foundation. Students are challenged and equipped to become change agents, accepting the responsibility to truly make a difference in the lives of hurting individuals within a global context.

The Psychology major is designed to prepare individuals planning to enter any number of post-baccalaureate occupational, human service, or cross-cultural settings by preparing program graduates to:

- demonstrate competency in academic content areas that meet prerequisites for graduate work in behavioral and social sciences;
- demonstrate the ability to effectively communicate their understanding of psychological issues in both oral and written formats, including mastery of APA style;
- think critically concerning issues relating to psychology, culture, and social injustice within the context of a globalized world;
- examine Christian faith integration and psychology.

The BA in Psychology is offered by the College of Social and Behavioral Sciences through the College of Adult and Professional Studies. Classes are offered successively in the evenings and on Saturdays. The entire four years can be completed through the College of Adult and Professional Studies program. Semesters run on a non-traditional schedule. This program provides the opportunity for working adults who cannot currently attend the on-campus day program to pursue their studies in Psychology.

For further information about entering the General Psychology major, contact the Graduate and Professional Studies Enrollment Office for an information packet.

YOUTH AND FAMILY MINISTRIES

College ......................... Ministry
Academic Award ............ Bachelor of Arts
Credits Required .......... 125 semester credits
Coordinator ................... Joshua Ziefle

The Youth & Family Ministries major is designed to prepare students for vocational ministry with adolescents. This course of study will enable the student to develop and express the biblical concepts of fulfilling the Great Commission in the church and as pastors in local churches.

The curriculum is focused upon seeing the Great Commission fulfilled in the lives of young people as they move through adolescence into mature Christian adulthood. An emphasis is placed on investing in young peoples’ lives and partnering with and ministering to families as well as the continued growth of the youth pastor as a person and minister of the Gospel.

Recognizing that effective youth ministry depends upon competent understanding and skillful use of the Scriptures, this major requires a strong component of Bible and theology.

In addition to the general goals of the University and the College of Ministry, completing this major provides learning opportunities which should enable the student to:

- understand a biblical theology of the nature and mission of youth & family ministry
- develop a theology of ministry that encompasses one’s relationship with God, family, personal life, local church, community, and world.
- understand the divine call and the proper function and the role of the youth pastor in the local church;
- acquire the skills necessary for effective evangelism, discipleship, Bible preaching and teaching;
- develop leadership, organizational, and administrative skills for leading a youth ministry and assisting the senior pastor.

Independent Study Courses — Identified with an “IS” and a code of \textit{x80x - x83x} (if not a catalogued course). An IS course is specifically formatted to be delivered by a professor according to the individual student’s needs and learning style outside of a regular classroom setting. The IS course topic, requirements, and expectations are communicated through a course syllabus/contract between the student and instructor that specifies the nature and extent of interaction between the student and instructor and the expectations for satisfactory course completion. This syllabus along with the Request for Independent Study form must be submitted to the dean responsible for the department in which the course is offered. Based on the nature of the course and the student, the instructor of an IS course may require a number of face-to-face meetings. (A special Independent Study Fee is charged for Independent Study courses.)

Special Topic Courses — Identified with a “TOP” (unless the title includes the type of course) and a code of \textit{x84x – x88x}.
