

BENEFITS OF COMMUTE REDUCTION:

Cut Costs

If you drive to work alone you're burning about 340 gallons of gas. At \$3.50 per gallon that is \$1,190. Add just one person and you can both save nearly \$600 in commute costs per year.

Stress Relief

Take time to read, chat with a friend or exercise while you commute.

Environment

710,000 pounds of petroleum and toxic chemicals flow into Puget Sound every year in the form of motor oil spill, drip, or runoff from pavement..

Have an Impact

Average vehicle miles traveled (VMT) per employee at CTR affected worksites declined by 5.7% between 2007-2012, with total statewide VMT reduced by 161 million miles annually.
